
Australia, New Zealand, India, Bangladesh Threads

Just talked to linsi over chat..I wonder why there no threads created for Australia, New Zealand, India, Bangladesh in the Country Forums..

and then it seems the following are redundant

South Asia

Indonesia, Malaysia, Singapore, Vietnam, Thailand

All of these countries, Indonesia, Malaysia, Singapore, Vietnam, Thailand, Laos, Cambodia all belong to South East Asia

While Korea,Japan, Taiwan , Hongkong, China, Belongs to North Asia

India, Bangladesh and neighboring countries all belong to Greater India Sub-Region..

You are right, we need more forums on these countries. I opened one on Pakistan and an Australian journalist opened one on Australia and Asia, but he didn't continue to connect to Asia One for a while. I hope he will come back soon.
