
Forming Federal Government

Building a UNIFIED "Federal Government" in exile?

<http://www.burmanet.org/news/2007/12/21/irrawaddy-exiles-considering-formation-of-new-government-in-exile-wai-moe/>

I would like to comment my thoughts on the crucial idea of forming "Government in Exile" for Burma. Forming "Government in Exile" of Burma sounds more realistic in deeds but what are the "reasons" for? Creating a "government" with appropriate personals is not very hard but building "able" and "capable" means to effectively have impact on the country and the people is kinda hard. When you used the word "Government" the relativity of the other word "Governance" follows. How will this so-called "Government" Govern the country and the people either from inside or outside?

In my thoughts, when a "Government" do exist either inside the country or outside, it must have means to "govern" the nation and its people. Tools are needed to "govern". Effective basic tools like....

- 1) Financial Funds (Economy)
- 2) Identity (Logo, Emblem, Flag etc.)
- 3) Military (fully armed personals / Army with strategic strategies)
- 4) Transparent Political Agenda (what they stands for?)
- 5) Knowledge (wisdom / insight)
- 7) Connections, many means to communicate.
- 8) Creativity, finding ways.
- 9) Foundation base on solid philosophies and terms.
- 10) Action (make it happen what you believe in)

These TEN principles need to be implemented and adhere (follow) with determination, dedication and deeds. If not, the creation of "Government in Exile" will be just a name sake like a mouth without any tooth. When you build something, especially a big project like a "Government" you must have means and ways to materialize what you plan for? Your aims and objects must be clear with working realistic plans to make it happened. Don't let it be a waste of time, energy, money and most important of all the "essence" of what "Government" really means. Hard work, strong belief/faith & funds in conjunction with brilliant ideas/strategies can make dreams become true and happened.

Mynmyat,

It seems to me Burma-Myanmar has an elected leader already. She appears to have popular support and she seems quite reasonable and loving in everything I have seen her say and do. She is the true leader and she has the presence to be leader.

Is the truth about Burma-Myanmar that the people in charge of the military do not respect her government like a band of pirates who rule the seas?

Can you 50 or 100 bloggers who visit this forum convince the people who trade with Burma-Myanmar to recognize the true leader of Burma-Myanmar and choose to deal with her on all matters of trade and international relations outside the influence of any acts of piracy?

When the pirates' pirated income dries up the 400,000 military people will find other things to do with their time like work for the true and trusted leader of Burma-Myanmar.

Mynmat,

I have also noticed that the most popular topic on this board is "Who is a true leader by kmyaing". I have not had the opportunity to read most of the topic however I would like to point out that the high level of interest in this topic makes me feel as if I am seated among a group of accountants who find pleasure in discussing the virtues of double entry book keeping. It's no fun for me and I feel shocked at the level of interest in that topic from people who seem to care about Burma-Myanmar's future.

My invitation to anyone who finds pleasure in "book-keeping" to put your feet on solid earth and believe there are real things that can be accomplished. I would like to suggest the real way forward for Myanmar-Burma is through everyone who cares to pull their weight with practical measures of support.

What practical measure of support can you type on this board so that another can act on your idea and make it so?

Naying,

Yes! Burma had gone through the General election in 1990 created by the same military regime (different General/Leader) and the result is NLD won with landslide. When the opposition party National League for Democracy (NLD) which Aung San Suu Kyi is the General-Secretary won and the pro-military party lost (NUP/National Unity Party) the military nullified the results. Now, what kind of action is this? If this is not blatant disregard to justice then tell me what is? This general election was done by the military and it is the military that nullified the results when they lost. Where is the credibility of the military? Again now in 2007 this same military regime with different General is pursuing for another election. Where is the credibility and weight after what they had done and demonstrated in the past? Actions speak louder, much much louder than beautiful deceptive words. Don't they?

Of course Aung San Suu Kyi is the true leader no doubt about it. You know it, I know it, the people of Burma knows it, the Buddhist monks know it and most of all the world knows it. Of course there will be pockets of personals who did not agree with the majority. This is normal/natural and expected. In their eyes and their blood all they see is militant views of "control & command" is better. These handful of people will endorse the rule of military as long as they live. I believe in that. Like I mention maggots cannot become caterpillars nor caterpillars cannot become maggots. There's a saying, if someone cannot lead, stay out of the way and let someone who is able to lead led the way. The people of Burma folded their arms and live under the rule of their military for 45 years since 1962. In other words they give chance to the military to prove their rule is good for the country and people. Look at where Burma stands today. She is the least developed nation. The worst corrupt nation on earth and the poorest of the poor.

Military had more than enough time to prove their ability. If they cannot make Burma prosperous and developed nation then get the hell out of the way and let someone, some personals that has the credibility, dignity and ability to take the leading role and make it happened. That's what the world ask them (spdc) to do. Either move towards democracy with all participants including nld. Spdc did not listen, instead they declare they are doing their way (7 steps road map) without nld or any help. Isn't this ridiculous? No cooperation or reconciliation from spdc part. UN declares the world organization will not accept the "status quo" which means spdc must not go back to previous status before the Buddhist monks demonstration/revolt in September, 2007. To me it looks like spdc did not heed UN's demands a bit. Look, in this world there are 2 ways of solving problems. One is the peaceful way and mostly known as diplomacy or intellectuals' way of negotiating, compromising, reconciliation so many "tings". The other way is the forceful way. In using force there are 2 ways. One is the "soft/mild" way (sanctions) and the other is the "harsh/severe" way (military action). To me, to deal with hardliners is the hard way. I had mention many times to use the harsh way to get the obstacle out of the way. At least taking actions like Naval Blockage (in the old AO forum). Well, nobody listens for I am nobody right. Look at the results, the suffering and the lost of many more lives including monks are the aftermath of my advice. See the results?

The world keep on using diplomacy as a tool which is not effective nor create any tangible results. It just prolong the problem. Now Burmese realize to take out this regime military action of shooting missiles at Naypyidaw is needed. This is not joke, this is real. Why did Burmese believe taking military action is needed? Because so many attempts or pleas or requests are landed on the deaf ears and blind eyes of the junta and the junta become more aggressive they blatantly kill monks of their own kind in front of the world's eyes and ears.

In short, I know nld do not like creating a parallel "Government of Burma in exile" but the reality is this.....

NLD is just like a soften liquid that spdc can mold into any shape or form. NLD is defenseless and at the mercy of SPDC. SPDC did anything they want. NLD is powerless. So, in my view in case of SPDC dissolved and implode which I seriously think they will in a matter of time, there is a possibility of "power vacuum" created by the fall of spdc. When ruling government collapse definitely chaos and anarchy can follow so to prevent that if the democratic loving Burmese didn't want that to happened, the opposition must be "well prepare and ready" to jump in and take over the collapse government. In doing that a well "organized" well funded and well planned strategies like forming a ready made "Government" should stand in the wing in case of emergency. This (federal) government is NOT, I repeat NOT the permanent representatives of the people of Burma but just a "temporary emergency transitional government" that fill in the gap of the current regime when it collapse. After the nation is back to normal THEN a permanent LEGAL Government of Burma should be formed by, for, of the people of Burma with the blessings of the world (UN).

As for 50 or 100 bloggers like us (me) convincing the nations that doing business with the junta not to do business with the junta? I think this is a long shot not to mention underestimating the word "greed" is. The same nations that do business with junta will do business with the new government whoever that government will be either nld or pro-spdc or even with usda. This is entirely up to the host nations to decide what is good and what is evil after all it is their countries' interest they all are after. The majority of the world recognized Aung San Suu Kyi is the true leader of Burma. Only a handful of Governments and a fistful of thugs and of course their axe handlers, supporters, advocates do not and they will try very hard to degrade her as much as possible either directly or inderectly. They know it, we all know it. As for the 400,000 troops of spdc you mention, I honestly do not think they had 400,000 regular troops. It is only on the paper in deed and the right numbers should be around most likely 200,000 not to mention the child (kids) soldiers of MyanMa Tatmadaw (Burmese Military) which most of them did not even like or even know (they are kids) their leader Senior General Than Shwe.

Regards,

Mynmyat.

Note for thought: It is better to had a "gun" ready when you don't need it than did not had a "gun" when you need. Having a well organized and prepared "Federal Government" ready when Burma not need it than haven't got "Federal Government" when Burma really needs it.

Naying,

My Motto is....." Together, Burmese and foreigners alike, we can do it".

The practical measure of support I can type on this board is.....Like the previous posting, it is better, smarter and wiser to have a "Gun" ready in hand when you don't need it than NOT having a gun when you do need it. In fact Aung San Suu Kyi wants people who have freedom or living in free democratic nations, to use their freedom in promoting democracy and she relay her message in request to those who are living in free nations to help her quest in standing firm for freedom and justice for Burma.

Exile or not, those who are living in free nations (Burmese and non Burmese) must "come together" regardless of any diverse backgrounds, culture, religion, race, gender, age, status and create a UNIFIED front in dealing with thugs. Of course when I say thugs, there are those who support them living in free nations promoting their propaganda agenda to divert the "unification of freedom forces" as one single force. Starting from the top, down to layman, reforms are needed. Strategies, compromise, positive attitudes with understanding, respect for each individual are needed and of course money is most needed. The reason spdc survive so long is they divide and rule with money resources (nation's national resources) coming to them in diverse ways, legal or illegal.

Coordination, cooperation in conjunction with finding innovative ways to create a UNIFIED front is needed. Contact and communication is vital and using high tech to invade the most top notch circle and recruit the inner military brass is needed to offset the mind setting of spdc lead by one man General Than Shwe. Division among the top brass is needed to probe for possibilities of dethroning the current mindset of the sole dictator spawn by their god father Ne Win.

If you dig at the old AO forum, you will find I criticized the appealing atmosphere for Communist China by the US Presidents starting from Nixon down to Bush Jr. current US President (although there are very good ones done in coded manner by him/Bush Jr.). Nobody cares for a mere immigrant like me and now look what happened? China is rising like a storm and aiming to buy out the entire USA as their subject. Who is feeding the cat (or dragon) to become fat? I omit Ronald Reagan as "exceptional" for he armed USA to the teeth and challenge the Communist Soviet Union (now Russia)

and USSR collapse. Appealing Communists does not, will not work. My advice was not heeded and many mistakes have been made by US Presidents including the current one so don't be surprised of the rising communist party/committee power in this era. Russia is also like minded atmosphere like in China. Now, media is televising the interesting subject like "Czar Putin" which in deed Russia is part democracy part dictatorship atmosphere where even many ordinary journalists' mouths were silence forever by killing them if they criticized the ruling rulers. Both China and Russia openly vetoed the majority "pass" resolution of UNSC against junta, don't they?

What happening in China and Russia is they are practicing "capitalists' methods" to enhanced their total grip on power of absolute control and command. In other words "control and command" freaks with wealth. Therefore undermining the value and forces of genuine liberty and justice.

The next US President who will be elected in the next 11 months (November, 2008) will certainly dent a vital blow to the world at large for I honestly believe many changes, reforms and strategies will take place aftermath of George W. Bush's final term expires.

Regards,

Mynmyat.

More compelling IDEAS!

Infiltration is the key in destroying the enemies' stronghold.

FIRST choose the appropriate site to established the "Headquarter" or "Office" of the new parallel Federal Government of Burma. SECOND, compromise among many diverse units and create one single unit and covertly or overtly open up branches with individual cells both outside and inside of Burma and THIRD, infiltrate the inner circle military brass (with attractive incentives) for there are some that do not want or like the present leadership of spdc.

Can the exiles or non exiles of democratic forces, groups or individuals (both Burmese and foreigners alike) compromise their differences and attitudes to do (unified) that for a start (as phase 1) for the sake of freedom and justice for Burma ?

Re:Forming Federal Government

Posted by Mynmyat - 2007/12/24 05:33

Phase 2:

After phase 1 (The Network) is finished, Phase 2 comes with the introduction of an elite top notch intellectuals that has the same likewise willing attitudes and principles. Name it " PARADOX ". Paradox is a top notch organization that is infiltration proof. A thoroughly elite intellectuals, scholars, think tank philosophers that lay out strategies (guidelines) to make things happened inside Burma. Members are spread out through out the world but twice (every 6 months) each year reunification together for reunion meeting to review the results of carried out missions. Remember, SPDC is powerless out of their country. They are the bullies in their own nation Burma (in Burmese AnGair). Outside of Burma SPDC is nothing. Take advantage of it and build an organization that is so strong and modernized that no one except the PARADOX members are the only ones that knows about the strategic strategies to make things happened for Burma. Training and Tactics are the core value of PARADOX. Sent out agents to all 17 armed groups and beyond that spdc had signed as peace deal, all different armed revolutionary forces need to communicate with agents doing the communication work and organized as a single force. Each and every corner of Burma these agents need to communicate with modern techniques instantly and effectively.

Don't forget PARADOX must be financially sound and source of its budget (called it BlackBudget) cannot be reveal how and where all these money come from, how or where the money is spent for what or for who. This budget should be totally black out, kept ultra top secret. In other words the source of the money flow must be kept ultra confidential and in

total darkness.

Combine strength and flexibility of the new Federal Government should be the backbone of the struggle against anti-freedom elements including their supporters and advocates alike. Keep closely watchful eye on foreign subordinates of spdc.

I do regret my pointed criticism of the "Who is true leader" exchange, after a good read in there I feel calmed and know there are many things about Burma-Myanmar that is completely outside of my experience. Maybe criticism is part of my karma make up.

However the facts are Aung San Suu Kyi has the spotlight on her. My simple suggestion is to convince people who trade with Burma-Myanmar to pay their debts to Aung San Suu Kyi directly, into a Swiss bank account if you will. She is the true representative of the people. Why do oil companies pay the junta? That's ridiculous.

Can trading companies choose to pay her directly? Can countries order their companies to pay their debts to her. Can the UN order countries to consider her the true leader.

And Mynmat if an outside government would be useful at least Aung San will have the funds to pay for it. How many military persons would rather work for her?

Naying,

Criticism is great naying for it is the bedrock foundation of "true" democracy. One can criticize all he/she wants for it is indicating the flaws or weakness of others for others to amend. Please don't forget Aung San Suu Kyi is a PRISONER of conscious. No matter what you call it house arrest or house detention or house restriction or whatever, basically she is a "prisoner" jail by the junta just because she loves freedom and justice for her country and people. Those who deal with the junta pays the junta and that's strictly business. These companies do not want to pay double expense. Business is business. As for money going directly to Aung San Suu Kyi, (swiss banks or any foreign banks) some of the noble groups or organizations or companies create like "awards" which is appropriate for her in which she stands for (freedom & democracy). Aung San Suu Kyi does has a lot of money now BUT she did not spent a dime for herself. If this is not unselfishness, what is?

I don't know about UN for in my view UN is so much polluted and have many poison minds working as UN reps but US had (as always stand for the oppressed people of Burma) pass the Congressional Gold Medal award bill to acknowledge Aung San Suu Kyi as the highest honored civilian of this planet.

Like I said "outside Government" is useful or not it's better to have a standing ready made Government on the wings than having no prepared Government at all IF and WHEN the illegal regime falls and Burma is in need of "organized leadership or functioning governance". In case of emergency, creating a standing "outside government" is better for if it not useful at all, it can disband anytime, can't they?

Here's another way of saying.....It is better to be SAFE than SORRY! For no one knows what's going to happen to Burma the future, for the future of Burma is very unstable and shaky. Even China (junta's staunch ally) knows it.

How many personals would work for her? The entire people of Burma plus "others" which is in millions would love to work for her and die for her. Why do you think the Buddhist Monks are willing to sacrifice their lives? Do you think they don't know the junta is wicked and evil? Do you think, these monks don't know they will be torture or killed? They demonstrated at their will and go against the junta and even march to the house of Aung San Suu Kyi and pay their last respect to her before they were killed or tortured or jailed or strip off their robes.

Now, THIS is the profound proof of willing to sacrifice for Suu Kyi, the irreplaceable ICON of our time.

Mynmyat.

Re:Forming Federal Government

Posted by Mynmyat - 2007/12/24 17:27

Phase 3:

Now, THE Federal Government needs an Army or Military Institution of its own. When I talk about Army don't think of barracks, bases with 100,000 troops for these are 20th Century Concept. The Army that I am talking about is..... Well trained, well armed, fully loaded/funded with high tech gadgets, well disciplined willing to sacrifice their lives (in Burmese A-Thay-Khan-Tat) "individuals" starting from 1 to 5 personal units. In other words a MOBILE militants the 21st Century militants that were well trained with tactics that is unusual. These small units are just like ordinary civilians and camouflage as civilians and the enemy cannot distinct them from ordinary people. Secret codes are the key in communication and coordinating with the superior units. I call units for these are small cells that dwell on deception and diverse. These cells can penetrate into all kinds of society including the enemy. When they dwell within the enemy, of course they act, talk, wear the same uniform as the enemy, in fact they are the individuals within. This MOBILE Army's goal is to break the backbone of the enemy's strength and neutralized and disable it. Remember, when you deal with a snake, you had to act like one.

In nature, God had created animals as a protection they too have camouflage defense system. My favorite animal is the OCTOPUS, an animal expert in camouflage, transformed into any shape or form (flexibility) and at the same time had many arms (or legs) or branches to reach out. Not only that OCTOPUS can grow back their arms if it was cut and can spit out dark smoke to blind the enemies.

My Motto for this "special unique" MOBILE army is.....Blind their (enemy) Eyes and Deafen their Ears, Confused their Brains and make them DISABLE.

Re:Forming Federal Government

Posted by Mynmyat - 2007/12/24 21:58

3 Independent Powers:

This is my idea of creating a force, both visible and invisible force base on strength, knowledge and money.

I divided into 3 major Phases or Sectors.

Phase 1 is NETWORK.....this is the actual new "Federal Government" consist of selected/elected appropriate individuals and the "budget" for this institution is transparent and can be verified AND legal.

Phase 2 is PARADOX.....this is the elite, a think tank intellectuals and genius thinkers that have both the motivation, insight and innovations. Their budget which is called "BlackBudget" is off limits (limitless) and move in total darkness and zero transparency. It is not verifiable and only A few out of the members know about it. This is kind of like an invisible force.

Phase 3 is MOBILE MILITARY.....this is the militant wing and does all the militant affairs or matters by blending into the society of the enemy creating enemies within enemies. Each individual is highly trained, highly skilled modernized proton (cell) capable of deciding by him or herself to execute order or mission assigned to him/her. A commando type concept. (A-Thay-Khan-Tat)

Now, each Institution of these 3 branches have powers of their own INDEPENDENTLY. No one institution can over-ride the other or others.

Out of these 3 institutions PARADOX is the most secretive and ultra confidential of all.

Those who deal with the junta pays the junta and that's strictly business. These companies do not want to pay double expense. Business is business.

When I go to the grocery store to buy a decent chicken to roast in my oven do I pay the policeman standing at the corner? The answer is no, obviously, I pay the store. Same goes for Burma-Myanmar's resources, buyers ought to pay the rightful owners.

In Burma-Myanmar people are forced to pay the junta. Outside Burma-Myanmar there are standards of behavior. It's just not right to pay policemen for decent chickens.

I understand Burma-Myanmar Monks are a fantastic example of peace loving people. I would much prefer to listen to what they believe will cause the country to change for the better. I do not accept a vision of clandestine military action as a way forward. If Mandella can ride a bike with no hands then the Monks can do it too.

Do you know any Monks who speak English Mynmyat? Who can give strategy and hope for you and all the readers of our blog. I suspect the Monks have the answer.

Nayting,

Sorry, I do not know any monk that speaks/write English well but here are the links and you can contact them by e-mail

and find out about it. Inside Burma many people are turning to monks when they preach/teach for in their preaching/teaching they are saying the evil side of the junta. Like you said many people believe monks have the answer and strategy. Right now the struggle between the monks and the military is going on inside Burma. We'll see who will win in the end for this struggle between monks and military is a showdown and there cannot be a tie. It has to be one down and the other a winner. Some Burmese websites have contact with monks. Translate the monks' strategies or interview by some Burmese translators will do the job. Just browse the internet on Burmese websites and you will encounter many with connections to monks. Good luck!

Because it is absurd to pay the policeman for the roasting chicken. Policemen have not learned the skill of shop keepers. If they wish to keep a shop come inside the shop instead of standing out there in the cold.

What reader knows someone from the UN who will support the idea that oil and export revenues belong to the people of Burma-Myanmar? What reader knows a buyer of Burma-Myanmar goods that can be invited to pay Burma-Myanmar for the goods? To do the right thing for Burma-Myanmar.

Naying,

You are welcome. Merry Christmas to you and all. Peace and Goodwill to mankind for the Prince of Peace was born

today. Although he was born more than 2 thousand years ago, his holy spirit is still on this earth that he created. I know many people argue or debate about Creationism. For a staunch faithful like me, there is no question nor doubt about Creation. In the beginning of the Bible, Book of Genesis it is written the creation of the universe was done in 6 days. Many people did not believe or even make fun of creating the entire universe in 6 days? According to humans' knowledge even at this 21st Century time no one can comprehend how an entire universe can be made by just 6 days? The scientists reveal and I believe it that the Earth alone is many Billion years old let alone the universe so how on earth can the creation be done in 6 days??? This is normal or realistic common human thinking. Yes, the Bible is a book BUT it is not a normal book for it is unique, unusual nor it was written by books writers of today time. There are many, and I repeat many hidden codes that is not comprehensible even to the highest Bible scholars. To me what 6 days mean to the writer or even God is that it can be 6 Zillion years for 1 day is equal to 1 Zillion "earth" years. I seriously doubt the writer is mentioning about "earth" time. Now, when I mention "earth" years (time) the scientists themselves proclaim that the "time" on earth is not the same as the "time" on the moon (the nearest object to earth) let alone to mention other planets or stars or galaxies. Within the universe itself, there are places where "time" and "gravity" does not exist at all. These are called "Black Holes" where everything is suck into it even the light and never come out of it. Stephen Hawking himself, the most known scientist of our time rival to Albert Einstein, the father of modern Physics declare the existence of "Black Holes" in our universe and now majority of scientists accept his theory. Don't forget the "Big Bang" theory for the universe itself started out of NOTHING! How can evolution takes place in a situation like an entire universe came out of NOTHING! ??? This is where creationism comes it for it is ONLY God can create things without any tools for humans can create things like cars, toys etc from using tools or need something to make them BUT not God for God can create out of NOTHING! Before you go off line for a week (have a nice kick/time off) nayting. Before you go, I would like to elaborate a little more about "PARADOX".

You live in Boston, Massachusetts and I live in Las Vegas, Nevada and you don't know how I look like and I don't know how you look like let alone to know each other or be friends or anything and yet, we communicate INSTANTLY with our comps thro' the net didn't we?. 50 years ago this was not possible. Am I correct on this? In the electronic and information age of our time we can discuss or present our thoughts and views instantly no matter where we live or know each other or not. Like wise I can be a member of PARADOX and you can be a member of PARADOX or a person living in Thailand or Jamaica or in India can be a member without knowing each other. We can meet thro' Internet, can't we? That's why I mention the PARADOX organization is "world wide" and the members can be abound and yet only a handful or a few knows about the "BlackBudget" for it is impossible to trace the money trail to all millions of members that spread out in every corner of the globe where different laws exist in different countries. Some members can even exist in the middle of nowhere or in a deep jungle where no civilization exist let alone laws to track down the money trail. Hope this clarify a little of what being a PARADOX member.

Yes, I accept your concept of giving to the owner of the store for a nice chicken and not the policeman standing at the corner but the situation in Burma is the Policeman is INSIDE the store taking place and ACTING like the store owner and thus receiving funds that he illegally takes from foreign companies and believe me many companies does not care a bit as long as they make money (good or bad way). This is the world we live in so like it or not we had to live with it. So long (for the time being) Pal,

Merry CHRISTMAS (acknowledging the day that Jesus Christ was born/ Jesus Birthday) to all.

I strongly believe NCGUB, NCUB and ABSDF should lead the newly form ONE United Federal Front (UFF) to prepare and be aware for the sake of Burma and her people in case of emergency.

The "duties" of each institution:

NETWORK: This institution is the Federal Government and take the responsibility for diplomatic missions, economic matters, lobbying, relationship with dignities of foreign countries governmental personals, making contacts, statements, representing day to day functions for progress for Democratic Burma.

PARADOX: This institution is world wide creating guide lines or making strategies by interacting, communicating, exchanging information, relaying messages, forming strategies, writing constitution or laws and so on.

MOBILE MILITARY: This institution is to carry out and executing or enforcing the guide lines and strategies of both NETWORK and PARADOX. They are the front line "working bees" of the UFF (United Federal Front)

Note: The 3 italic websites are the core sites.

Comrades,

The best and effective way to sent messages to be heard is "videos" therefore the freedom forces should make interviews with monks, students etc on videos (translate in English if needed) and post it on the major opposition websites for the whole world to see and heard and understand the true situation of Burma. Now and then refresh the sites for attractiveness and modernization.

Make compromises among and create a unified front for better strength, solidarity and effectiveness.

For example, an Emblem is being created for UFF (United Federal Front / Force). Check my profile and click on pictures. http://www.asiaobserver.com/component/option,com_comprofiler/Itemid,0/task,userProfile/user,856/

Comrades,

Check this link. http://www.irrawaddy.org/article.php?art_id=9752 This is what I'm talking about. Movement with momentum like this there is no way the junta can handle for there are many as MM (Mobile Messengers/Militants) not to mention the millions of "paradox" members worldwide where the junta had no control over their limited boundaries Burma.

Like I mention before SPDC is powerless outside of Burma (their house). Even within their house Burma they were off guard during the September Revolution and the world witness with shock and awe the cruelty and nature of this particular regime.

Make VCDs, CD-ROMs or even DVD-RW and distribute inside and outside of Burma in many ways. Remember SPDC is caught off guard during the September Revolution and their conduct was seen by the world and the world's attitude (of course with the exception of a handful of spdc supporter nations) change and harsh actions are implemented towards the junta. This is a huge success for the opposition and the momentum of the monks' sacrifices must be carry on with effective and efficient strategies and that is why "MasterMind Benders" (Paradox Members) are needed and I am contributing many ideas to implement. My ideas are limitless. Some may be useful and some may not but there is nothing like trying again and again just like a little spider that tries to create a WEB and finally succeeded in the end.

Long Live the Universal/United Federal/Federation Front/Force!!! :cheer:

Comrades,

Burmese military is barring Buddhist monks from preaching/teaching to the public. Why?

Here is the link http://www.irrawaddy.org/article.php?art_id=9751 for proof of the nervousness or I should say paranoid schizophrenic manner of the insecurity of the junta for they hate the "preaching and teachings" of Buddhist Monks to the people. Deception cannot with stand the truth. When ever there is truth, the deceitful persons can't stand and now the Monks are preaching the truth nothing but the truth and nature of evil and evil doers. Distribute the teachings of the monks to the people for now is the information and electronic age. Take advantage of it for you all will see the dissipation of spdc for their days are numbered. Even China is changing her tactics of supporting the chain of despots and slowly keeping away from these despotic regimes.

Can you all imagine if I'm living in Rangoon, Burma and feeding strategies (ideas) like now, what the junta will do? I know you all already knows the answer and I don't need to say. This is what I called the power of an individual, a neutron or a proton or a cell. The entire SPDC is afraid of ONE FEMALE and I think I don't need to elaborate on that. Do not underestimate the power of ONE (individual) for the entire Universe was started from a tiny speck of NOTHING! Keep on doing what you have to do and carry on the torch of freedom and justice for life goes on with or without leader/leaders. If each one of us do our part, a brick, any brick can become part of a wall. Maybe even a GREAT wall. Of course if there is a leader it is good but COMRADES do not forget the power of ONE. YOU can make things change and happened.

Cyber warriors, netters, readers, writers, moderators, members, bloggers and all. Where in the world can you find a military institution that bans monks not to preach/teach to the public? Monks are made/train to preach and teach aren't they? What's the meaning of being a monk and not to preach/teach to the public? See how the military institution cross the line? Who give them the rights telling monks not to preach/teach? Who? Who the hell give them the right to rule Burma indefinitely in the first place anyway? Who ?

Happy and Dedicated New Year Comrades,

This is my new year message.....

Cyber warriors, netters, lurkers, teachers, preachers, destroyers, builders, administrators, liars, cheaters, womanizer worshipers, psychopath adorers, monks killer supporters, murderers, job seekers, truth seekers, odd people, stupid people, smart people, axe handlers, engineers, doctors, thinkers, players, dealers, drinkers, jerkers, joggers, suicide bombers, lawyers and ALL.

Today is a new day, new year and the torch for freedom and justice will carry on. The pursuit for happiness and prosperity will move on like a marathon race. The struggle between "good" and "evil" will continue. America DID NOT "started" this 21st century war BUT America will "finish" it. No doubt about it. It may take 2 Presidents or 200 Presidents but America and Americans republicans or democrats or independents alike will finish it. Generations after Generations the torch for freedom and justice will carry on, no matter what the costs or the lives we have to sacrifice. Tyrants, Dictators can run but they cannot hide for the forces of freedom will hunt them down like bounty hunters and seek justice any place, any where, any time of this planet. It may take 8 years or 8,000 years the spirit of freedom and justice lingers on each and everyone of us. Freedom never come cheap nor justice is easy but we will pursue with strength, determination, dedication, perseverance, persistence, wisdom and intelligence. We will encroach all corners of the world to weed out all the evil elements where ever they are, who they are for we will NOT falter, waiver nor sway in the focus for freedom. Times may change but the spirit for freedom, given by God continues till the end of time itself. Heroes, leaders and icons may be lost forever but their goals, aims and their love for freedom/democracy and justice shall never be lost sight and WE the PEOPLE will continue the fight until and unless we had total victory and the evil enemy is defeated once and for all. The torch must be pass from one hand to another with or without leaders for each one of us have our own brains created and given by God. Every region or religion we the earthlings have the potential ability, creativity to invent ways and means to tackle the evil COMMON enemies. We must be 3 steps ahead of them and determine to fight them to the end. Governments change, policies can change, countries can change, boundaries can be change but the PEOPLE will be there till the end of the life of the earth. Each and every one of us have responsibility or duty to make our sons or grand sons and daughters or grand daughters and so on, to live a decent normal life without any threats or intimidations or dictations of any kind from evil elements. With the technology and inventory (the cutting edge) catching up, we will prevail!

Will stop for now. May the FORCE visible or invisible be with you all.

Comrades,

What she wrote is bloody true.

http://commentisfree.guardian.co.uk/rosa_davis/2008/01/we_must_do_more_for_burma.html

I want to comment US political situation for it is important for the entire world including Burma. The impact of changes in US Presidency at the end of this year is vital not only to US but also to the entire world so choosing the right one/person for the right job is crucial. What happens in US will always have ripple effects, either in economic terms, military terms or in political terms. This year 2008 is an election year but it is not an ordinary election year for it is crucial for US. This election will be the first "changing of the guard" for America and Americans since 9/11. President Bush had laid down principles and use "sanctions" as means to tackle the tyrannical regime of Burma. So far diplomacy is the only way in solving Burma's problems but it seems to me these tactics have gone nowhere or had any impact on the regime itself. My predicament for the next US President is Mike Huckabee although Mitt Romney and Senator McCain are some of my favorites. The late President Ronald Reagan was an actor and doesn't had much experience on foreign policies/affairs but he turns out to be the most effective US President ever in dealing with foreign adversaries especially rival super power USSR. We'll have to wait and see what/how the next President is going to handle the foreign policy of US for in this era US is no longer safe by the Oceans any more for what happened in other parts of the world can come to US and even destroy US just like 9/11. Not only foreign policy is vital to US but the "action" of US implementing/enforcing it is also crucial for credibility counts.

The serious race for the White House "starts" January 3rd 2008 IOWA (State) Caucus so it is a very important date for US and beyond.

What he wrote is a Bloody Blundering Bullcrap.

http://www.asiaobserver.com/component/option,com_fireboard/Itemid,453/func,view/id,4401/catid,3/

People like him will say/write anything. They will say "green" when they see "red". They will say "red" when they see "green" for their masters. They are brain washed and trained to be like that. What can I say? Believe me there are some monks killer advocates in this forum let alone to mention in the outside world of Burma. Their tasks given orders from their masters are the same. Deceit as much as possible for deception is their way of life.

Speaking of their masters, these advocates did not know or pretend not to know that their own commanding masters are becoming PAWNS in the world chess board. Yes, foreign Governments are giving "orders" to these so called "masters" to do this or that or else. Who in the right mind will think they are masters when many foreign governments are giving or demanding I should say "orders" to them. At least this advocate acknowledge their masters are being given "orders" to reconcile. This prove the very status of them as PAWNS. First they had become the PUPPETS of foreign governments and now they are downgraded to PAWNS which means worthless means to scapegoat and use them as a thing for the sake of more valuable agenda or matters.

Yes, these pawns will be USED as means to jump to another agenda. It is common sense to USED a worthless thing to gain a worth while matters. People who had fresh brains and people who had the ability and capability to give "orders" are the BOSS. Who is the BOSS and who are the SERVANTS in this WORLD (not small boundary like within Burma) political game? Who give the orders to who? This advocate acknowledge that his boss/master is being pushed around for reconciliation and given orders by foreign governments. True, like it or not, who ever is the boss gives the orders. Don't they? Who are the kings, queens, knights of the world's chess board and who are the pawns ? Read the posts and it will clearly expose who are the pawns and who are the knights and who are the queens and kings of the world chess game.

Will stop for now Comrades and may the FORCE visible or invisible be with you all. Watch! We will prevail in "due time" for our strategies are based on TRUTH and JUSTICE.

Comrades,

Look! We hit SPDC's nerve center. Our strategies are working and the junta is trying to offset the goals of information and communication strategies for they are doing evil and evil like darkness away from the light of enlightenment including the teaching and preaching of Buddhist Monks to the public. In monks' case the junta ban it and in the peoples' IC (Information Communication) case they hike the fees to cut down the use drastically.

Re:Forming Federal Government

Posted by Mynmyat - 2008/01/05 17:15

Comrades,

Let us hit hard where they are most vulnerable.

SPDC is fragile and vulnerable. Even their staunch supporter and life saver and master Communist Chinese Party is nervous about the stability of spdc now. Times are changing and changing in disfavor of spdc. The civilians, the students, the monks even the officers among themselves are against Than Shwe's CLIQUE. They are indeed PRAWN head PAWNS (downgraded from PUPPET status) in world's political chess game. Here are the facts spdc is seriously lacking big time. Let me point out their weaknesses.

SPDC lacking and weaknesses are.....

- 1) High end technology
- 2) Limited ability beyond Burma, even within Burma spdc cannot eliminate "handful" of armed adversaries
- 3) Powerless outside of Burma
- 4) Wisdom and know how skills (the power holders are militant trained brains)
- 5) Innovation, creativity and ingenuity.
- 6) Advance informations and communications.
- 7) Moral or Mental deficiency (kind of retarded in understanding good) In other words, they are good in evil ways and means.
- 8) Limited resources/means (stranglehold sanctions in placed firmly)
- 9) Up hill battle because of their unpopularity against majority young officers and people that do not share their outdated dogmatic ideology.
- 10) Top brass inner elite circle where they hold the real power are aging and unhealthy which means they are fighting the losing battle within themselves and winding, waning down to nature's call for demise.

These 10 facts are "some" of the weaknesses and lacking of spdc, for these are essentials as a driving engine for any nation's government to take the nation and people to prosperity and advancement. That's why it took many years (for them) to draft a piece of paper called "Constitution" let alone to mention making the entire nation "modern & developed".

Comrades,

Don't be like a frog "croaks" from his little pond.

http://www.asiaobserver.com/component/option,com_fireboard/Itemid,453/func,view/id,4432/catid,3/

Don't be like a frog "croaking" from his little pond for the small pond's water is drying up, evaporating and this little frog will be left "high and dry" waiting for some "frog eaters" to fry him up as a snack in due time. Remember, there are many frog eaters in this world especially in his region.

Just as time and tide do not wait for nothing nor drought and democracy will not wait for drooling fools.

Comrades, don't be like a "frog in the pond" BUT be like a "whale in the ocean" for we are the major "players (not pawns) of passion, perseverance, persistence and pursuing for prosperity and happiness" in this wide wide world we call "world wide web" (www) for our birth rights were taken away by a handful of ALIENATING evil doers of our time.

There is no this that in independence he says, but what about "militancy fascists" (worst kind) that rules the nation for 46 years out of 60 with iron grip? Who are the enemies of freedom for the people? Than Shwe and his CLIQUE is the enemy, for the Buddhist monks did not sacrificed their precious lives for nothing. Why did monks who knew the natured of this "militancy fascists" did what they did? To remove the enemies of the people of Burma. Don't they? The demonstrations and the struggle these brave civilians led by monks will not, shall not be in vain for WE the living PARADOXANS will carry on the torch of "Life, Liberty and pursuit for Happiness" among all races, religions, cultures, regions of this planet we call OUR home.

That's why I had mention earlier their deficiency of mental status (including their frogfish advocates) causing many problematic chaos of Burma and Burmese people.

PM of the Federation.

Note: the meaning of Independence according to dictionary.

Independence = the quality or state of being independent

The definition of independent:

1: not dependent: as a (1): not subject to control by others : self-governing (2): not affiliated with a larger controlling unit <an independent bookstore> b (1): not requiring or relying on something else : not contingent <an independent conclusion> (2): not looking to others for one's opinions or for guidance in conduct (3): not bound by or committed to a political party c (1): not requiring or relying on others (as for care or livelihood) <independent of her parents> (2): being enough to free one from the necessity of working for a living <a person of independent means> d: showing a desire for freedom <an independent manner> e (1): not determined by or capable of being deduced or derived from or expressed in terms of members (as axioms or equations) of the set under consideration; especially : having linear independence <an independent set of vectors> (2): having the property that the joint probability (as of events or samples) or the joint probability density function (as of random variables) equals the product of the probabilities or probability density functions of separate occurrence

Think comrades, the people of Burma are controlled by whom? Then you all will know the true meaning of INDEPENDENCE.

The matter of "who is the true leader" is not matching with time. I am not sure under the current situation all Manmar People will agree with that Aung Sun Suu Kyi is our true leader. Because we are facing with now "time" problem. She might be a good leader say compare to General Than Shwe, but time is I think not for her now.

We need to do so many things to rebuild our country.

Most of the Burmese poeple are now concentraing on the matter of jobs, education and health care system. The thing the opposition should do now is finding ways how can we build our country in these domains. We have urgent matters to resolve. I honestly do not see at all the position of pro-democarcy opposition will be much higherly recognised by the molitary in power in near future at least for 20 years. We already lost 2à years, time is not waiting for us. We have no time to lose at all.

If the opposition does not want to be barred from playing a role in future state of Myanmar, I think they should make a radical change of stradgy and of seeing/analysing the problems.

As far as i know the ordinary people are no longer patient for the situation. We need a change - a change that will allow us to start working peacefully for our lives.

No time to lose. Everybody knows federal government dream is far from the reality we are facing. We need basic things to be built firstly - such as jobs for all, education and health.

Re:Forming Federal Government

Posted by Mynmyat - 2008/01/06 17:51

Good thinking. Thanks for your thoughts, realistic thoughts. I can response to this kind of down to earth concepts. As for the "dreams", let me clarify it first. Dreams are part of human. Dreams are part of mankind endeavor. Man is place on Moon starting from a Dream. Blacks in America (now one OBAMA is a potential candidate for next Presidential bid for US President) are becoming more and more progress as part of a dream of the late Martin Luther King Jr. (black). We all experience "dreams". There is no one on this planet earth that do not experience a dream while sleeping or awake. Yes, no one. Dreams are essential. It is made to make man and woman reach for his/her goal if that person or persons are eager to pursue with action thus action follows the dream and "dreams CAN come TRUE/reality". Sometimes, the root of reality is dreams.

Now, let's go back to reality. You talk about jobs, jobs, jobs and jobs to make an honest decent living right? So let's concentrate on jobs. Jobs will be only available when things and matters are suitable for it. What that means is the circumstances of creating jobs need some atmosphere of CONDITIONS that suitable for the jobs. Let's track down the root cause of CONDITIONAL situation. Conditions like investments, financial funds, know how skills, transparent laws that protect investments, normalcy, available credits, available resources, materials, brilliant strategies with brilliant brains to create an environment where supply and demand are match vibrantly. All these things will be blocked and will not function properly if there are SANCTIONS in place or abnormal. Will they? What is sanction? It is blocking or blockage for these things, matters, materials NOT to function properly. Why are sanctions in place in the first place? If we know why the sanctions are place we need to find a good solution to lift the sanctions. Don't we? Did you follow to this point? If the "smart/wise" rulers are realistic like you they will definitely find ways to accommodate prosperity for the people and the nation by taking actions that leads the way for lifting sanctions. Of course if these rulers have "mental deficiency" (mentally disable or retarded) or lacking/retarded in understanding the goodness and goodwill for the sake of the nation/people, they will not try to find ways to lift sanctions, stay put and let sanctions eat all alive. It is mere ILLUSION if a person asks for jobs or to lift sanctions WITHOUT even thinking or doing to create situations or conditions for sanctions to be lifted. For simple example it is like a man where his legs are tied to a pole and he asking frantically, I want to run, I want to run. The solution is if he wants to run he must first untied the rope that is tying him up to a pole. AFTER untying the rope, then, he can run. Does that make sense? common sense?. It is a pity the long time fascists rulers does not even have common sense so it is not surprising a wealthy nation like Burma becomes Beggars' nation. All SPDC did is beg for arms or whatever to India, China, Thailand ASEAN as many countries she can get. Burma does not create by its own, all they do is beg others in return for natural resources. Burma is still using barter system (US/International financial system is blocked too), a stone age trading method done by our great great grand fathers many centuries ago. Burma legs behind in all aspects of life not to mention the backward mentality of the rulers and that is why Burma is the poorest of the poor in this world. Bad judgement, bad management and bad ruling make this happened. From good to bad, from bad to worse, from worse to worst. The torch of raw injustices are carry on from a womanizer to a psychopath and now on to monks killer. Burma is going down indeed. Can't even afford to find a decent job to make a living let alone to mention becoming rich.

Rule no 1, 2, 3 etc is REMOVE these evil doers, nation destroyers, militancy fascists and Burma will be back on track like before they enter into this political ring and THEY are the obstacles, stumbling block in the way for prosperity and happiness where jobs will be abundance/available.

Regards,

Comrades,

You all have done a great job. The momentum initiated by the monks walk on! Keep up the struggle and present the situations of Burma OPEN to the world and to all corners of Burma and her people and let them see the true events, situations that's going on. Spdc wants to close so we got to open. This is the norms of resistance in the struggle for independence from the militancy fascists that rule Burma for so long. This time their time is up and their leader is near extinction. WE, PARADOXANS will flood the world with pictures and videos of our movement and let the world knows our dedicated struggle for freedom and justice the people of Burma and for Burma itself.

Good job comrades <http://whoiswhoinburma.blogspot.com/> good job. Keep the momentum initiated by the monks who sacrifice their lives in the cause of freedom and justice for Burma and Burmese.

SPDC is on the defensive now <http://www.narinjara.com/details.asp?id=1574> for the revolution started by the monks will be carried on and on until and unless evil grip is removed from Burma and her people. Revolution has no boundaries and Burma is joined by Bangladeshis in the struggle for independence from military fascists' rule.

I like this kind of blog <http://baydah.blogspot.com/2008/01/picture-of-today-protest-in-political.html> a step towards in par with International conscious of humans endeavor in search for "life, liberty and pursuit for happiness".

WE, the PARADOXANS can do it and we will prove the world with our deeds (action) and not just statements like many does. We CAN and WILL do it!!!

Who is controlling the people <http://www.asiantribune.com/index.php?q=node/9005> Where is the essence of independence? The people is being control by the militancy fascists or the militancy fascists is being control by the people? Where is power vested upon? In the hands of the people or in the hands of the militancy fascists? Gone is the INDEPENDENCE of Burma and the Burmese.

The people definitely did not enjoy the true meaning and essence of INDEPENDENCE which was lost initially since 1962 to its own militancy fistful of fascists.

Hi,

your thinking is so complicated or difficult to understand to everyone, because you are just writing down a known theory. Theory's time is over. I do not think the readers share with you either.

All conditions mentioned in a theory can never be met immediately even for some of them, we need to work hard to realise. Before start working we need to think very simply.

The very fondamental condition for attracting the foreign investments is to establish a political stability in our country.

Under the current situation, we can get the political satbilty when the proposed constitution is approved by the people of Myanmar.

When a facto government (not military government) is established, the foreign investments will come to our country no doubt at all on that point. Because our country has many potentiel not only in natural resources but also in resources humans. The investment will go to where there are business benefices, what they need is political stability, military or civil governance is not their concerne. And democracy or dictatorship makes no diference for them. They need only Two things:

1. Business benefices
2. Political stability

The only regretable thing for all Myanmar people is Aung San Suu Kyi led pro-democracy forces were incapable to make realise even a little balance between military and civil in the proposed constitution.

Things become extremely clear now for all of us.

People have learned that we could not continue in a cycle of "uprisings and crackdowns" because it will not give us any benefices at all. Therefore it is time to choose to all maynamr people.

"political stability" or "chaos".

it is just as simple as that finally.

Howdy Mowdy,

Theory of Fact?

Burma's regime is place under severe sanctions is a FACT
Burma is a poor and least developed nation on earth is a FACT
Political instability with many deaths, detentions and corruption is a FACT
Military regime is ruling without the endorsement or votes by the people is a FACT.
The current 7 step road map is a sham
Any house build on sands will not last no matter how grand the house is.
The "facto government" you mention is fundamentally flawed from the very beginning and it will still be problematic and Burma and the people will suffer longer.
Until and unless the peoples' wishes are adhere in true democratic ways involving ALL including the opposition there is no way out of this mess.
The regime is stuck and still stuck and stagnation is catching up so don't cry for jobs or prosperity for it will be only an illusion and delusion to expect prosperity with FLAWED approach from the very beginning.

As for the readers' view (sharing or not) it is NOT my problem. I present mine and you present yours. In this world we all had different views, ideas for this is a diverse world and we live in a diverse society. Each individual is different from one another including twins. My duty is to present MY ideas or thoughts. Taking or discarding is up to the public. I didn't mention a word in all of my postings my ideas MUST be taken or else. Did I? It is all up to the public to choose and decide. There's a saying.....one man's trash is another man's treasure. I believe in that.
How in the world do you and your like minded people know Aung San Suu Kyi led pro-democracy are INCAPABLE when Aung San Suu Kyi was arrested in her own house for many years and have no power or authority to change things. How do you know? Your say is just like an army that surrender when the battle is not even fought yet. Did you see Aung San Suu Kyi in the place of Than Shwe and giving orders to change Burma? Did you? Does Suu Kyi has authoritative degree to perform changes to Burma.
You are blaming Suu Kyi a female arrested in her house for all the wrong doing of an authoritative dictator Than Shwe's conduct. If this is not theory or speculation, a delusion theory/speculation that is totally wrong, then... what is?

Does Than Shwe has the authority or Aung San Suu Kyi has the authority? Who is illusion and delusion?

Don't blame on the innocent. You guys are jailing the "victim" and praising the "criminals". Wow! No wonder Burma is in deep mess. No wonder.

The problems lies on the rulers and not the subjects. I hold 100% accountable on the Government. Yes, 100%. No doubt about it!

There is NO political stability as long as unjust, unfair and inadequate murderers ruled the nation not to mention the ethnics' desires taking into account. Remember, freedom never comes cheap nor true justice is easy. Chaos or Maos, a man got to do what he has to do. Good or bad.

You say balance. What balance? Putting one person in house arrest and talking about balance? What a crap! If you really know what you are saying and if you really wants balance, free Aung San Suu Kyi and political conscience prisoners and create EQUAL footing with the junta and then talk about Balance. OK?

Comrades,

THIS is what I call Unified Force (Movement). All freedom and justice loving branches must find ways to coordinate and communicate and speak as ONE voice, ONE force, ONE agenda, ONE goal. Unity through diversity is our motto and respect and acknowledge one another is our theme http://www.irrawaddy.org/article.php?art_id=9813
The name is "SCMM" (Steering Committee of Mass Movement) consisting of 12 major entities (Pro-democracy Professionals).

Strategists need to be place. For example Communication strategists, Coordination strategists, Network of agents that adhere to a synchronized system that makes things happened. The death of Burma's Independence http://www.irrawaddy.org/article.php?art_id=9801 must be revived through our efforts in eliminating the rule of militancy fascists' law and replaced with genuine democratic laws. In Burmese language version http://www.khitpyaing.org/news/jan_08/4-1-08a.php

- 1) Alliance of All Burmese Buddhist Monks,
 - 2) 88 Generation Students group
 - 3) All Burma Federation of Student Unions
 - 4) Burma Muslim League for Peace
 - 5) Burma Lawyers' Union
 - 6) New Generation Journalists Union (Burma)
 - 7) Organizing Committee of Mass Movement (Mandalay)
 - 8) Committee of Mass Movement (Rangoon Division)
 - 9) The Association of Writers and Artists.
- And 3 more.

Together WE can make a difference!!! Carry on Comrades, Carry on!

Hi again,

obviously you did not read the situation well. Politics is not a matter of "truth and justics" it is simply " fox and lion". Eveybody tries to justify their acts by all means - forces or ruse or both. Hardly world politicians as well as Myanmar military could do plain politics like you are demanding while everybody is struggling for "winer of the game".

"innocent or vicitim" simply has no meaning in political game.

However I am not here to discuss about the matter of winer or loser. I am here to discuss how can we get the political stability in our country.

The september demonstrations happend, people have died on the streets. Political impasse is not resolved. We get instability and chaos. Facts are facts. These are causes and effects. What happen happen.

Let's say we will make again another uprsings bigger even than 8888. The whole administartion is in NayPyiDaw. The state is intacte. Manay people will be died again on the streets. What will we get - intstability and chaos. Again political impasse will be prolonged. Who are the losers? The Myanmar People! that include me.

I do not want to be loser any more. It is true that if we can make a little balance in power share between civil and military in the constitution, it would be better.

I want to be winner - I want political stability in order to invite foreign investment. I see the solution in the constitution even though it is in my desire completely. The current imminent problem is geting the political stability.

Regarding the pro democracy opposition, they take their way, we take our way, that's all. The falldown of the opposition is no longer our concerne at all. We need to defend our own interests, i am not here to defend the interests of the opposition at all. We have given 20 yeras, they could not come up with triggering idea for change. So it is time for Myanmar people to choose " Political stability" and "Chaos".

With political stability,

we can have the creation of job opportunities
we can improve our daily lives
we can send our children to the school.

That's all we need - basic needs - necessary things to live.

I am not advocating for the Junta. Simply I am defending my own interests just the same as the opposition is defending their own interests in oredr to keep fire on house for their survival. Because I want Peple be winner.

It does not follow at all the people of Myanmar forget the democracy cause. It's simply we need a break to energimize us and take time for improving our daily lives. And the we continue our cause with different way, methods and ideas.

Aung San Suu Kyi or NLD reamin in our cause of searching the ways democratization is not our concerne, it their decision and their way. If they can come up with new ideas with us into the 22th century, they will stay with us, otherwise they will be behind us. That's all.

Re:Forming Federal Government

Howdy,

The very political stability you talking about is for spdc to move out of the way. If they can't make Burma prosper than get the hell out of the way and let the people who CAN take over. Without releasing the political prisoners including daw suu then the very political stability can't be materialized. Understand? Don't make a Wee without Wa OK?

People will never be a winner nor the independence fought with many lives will be meaningful as long as the militancy fascists rule Burma. That's the bottom line. Don't be a chicken and give away your rights and freedom to Chicken Run Regime. I am not accusing you of siding with the spdc for I do not care or afraid of spdc. They can kill all my relatives, I repeat ALL my relatives but I will still fight for freedom for freedom and true justice is worth more than ALL my relatives living inside Burma. Freedom and justice is priceless. Got MY point?

If you and your like minded don't want to help so be it but don't get in the way for collateral damage can occur. If you don't want to help that's fine but don't interfere in our struggle to eliminate the evil.

Slave mentality is NOT an option for us and we will fight to the end. I rather die in vain or pain than live in slavery life where there is no freedom and justice. Living freely, every minute counts and it is better to die than to live like a slave under the heavy thumb of the militancy fascists.

I choose chaos instead of stability if there is no freedom or justice. Monks had already shown the way what sacrifice means. It may take many lives more but the struggle will not end no matter how many more lives to be lost or how long it takes. What ever it takes we will share our blood with the ones who had gone in front of us.

You sounds like give me/us a job/jobs (or stability) and I/we will shut up forever. This is kind of slavery mentality. Slavery is NOT an option for Bravery.

Comrades,

This is the nature of Myanma Tatmadaw http://www.irrawaddy.org/article.php?art_id=9866 Now I understand why a Burmese soldier who shot the Japanese journalist at point blank range wears a FLIP FLOP (slipper). Not only are the people of Burma are slave, the soldiers/privates are also slave to senior militancy fascists.

The struggle for second Independence for Burma is going on.

Good work comrades, like I said, we must use ways where spdc is vulnerable and weak. In this electronic and information age we must take advantage of it and hit them real hard where it hurts them. I know and now see the momentum has started and the NEW REVOLUTION or counter-revolutionized the militancy fascists rule/saga had begin. In this digital age those who have brains with innovations, creativity will win and those with mentally retarded will lose.

Yeach I got you totally. That's what I want to hear from you -The opposition's blindful tactics and methods resulted to "chaos" !!no matter how many people will be killed on the street!! let people be killed on the streets as many as possible. The number of deads will be used to prove how much the junta is bad to the world!!! 100 not enough 200 not enough yet, say 1 million or 2, Oh we have 55 millions we can let them killed at least for 45 Millions or even 49.9999 Millions, why not!!!

They do not think "cause and effects" but eager to provoke "chaos, instabilities" by agitation. They agitate and agitate tirelessly but finally "lost their way" and then they cry "we are lost, we are lost help us help us" and agian they agitate and agitate again - "a wondeful cycle without end"

Hopefully, the whole opposition does not think like you. Otherwise, I strongly think that them and People of Myanmar have no way to meet each other any part of our roads.

What a great great pity for them.

Believe me, no way to meet at the a cross road.because Burmese people need political stability if the opposition can not create the political stability, we will create on our own, that's all.

I strongly urge you if you are an activist, think before you act, if you do not want to be loser in your way.

I choose the satbility.
you chose chaos.

The world is changing so quickly, we have no time to lose in a cycle without end. We have a lot of work to do.

We run our world, our country, we do not need blindful opposition.
they take their way, we take our way. no way to meet.

Those who can come up with triggering ideas or landmark policy will be winers. We need to build the basic things for the sake of country.

Those who come up always with the same methods even though these are proved to be wrong will be losers.

Re:Forming Federal Government

Posted by Mynmyat - 2008/01/07 23:32

You got NOTHING! Those are my words and I don't break it for no one. You're talking about 49,999 millions killed and yet you do not blame a WORD on the killers but instead you blame the victims. It is I who got you! I had previously mention that you had blame the "victims" instead of the "killers/criminals" don't I? Now you prove it yourself. Who is blind? You or me? Like I said more than 4 decades of military rule had not only blind you but also make your brain washed and never see the root of cause and make you think criminals as victims and victims as criminals. Lost? What lost? It is Burma and the people that are losing isn't it? Are you one of the people or are you one of the fascists?

If you answer you are one of the people then it is you who is lost? In fact the Independence Bogyoke Aung San and many sacrifice for freedom from foreign fascists is lost to LOCAL FASCISTS. I guess some people has no brains nor no eyes nor no ears to think, see or hear what's going on inside Burma. Cry? Who is crying for jobs? Who? You or Me? Look back the past postings and find out who cries? I am a warrior, Cyber Warrior and tears are not an option nor death is. People like you will give anything, yes anything, rights, freedom etc if some one give a little to survive. That is slavery mentality which the boss or fascists had used for centuries.

Trust me, pity yourself for people like you are blind, deaf and dumb not to mention slaves for the rest of their lives and that is what the fascists wanted for they can rule the nation with people like you for decades and decades with no OPPOSITION. No wonder they had ruled for 46 years and still counting on people like you. Deception works for people like you and I truly pity you and like minds like you. Read the sentence in FULL. I choose chaos IF THERE IS NO FREEDOM OR JUSTICE. Can you read properly?

We will see who are the winners and who are the losers. Don't count the chicken before they are hatched. I hope this sentence is not too complicated for deaf, dumb and blind people. The NEW revolution has just started in 2008. Your master is already retreating. The OPPOSITION creates their own newspaper. Did you read that link I posted?

What is your world? A pond? A small pond called Burma? Is that what you called WORLD? If you don't need my ideas then DO NOT READ MY POSTS its as simple as that. No one forced you to read my post. My post are for my people not yours? Understand. Go post your deceptive thinking on "thunderboats" or "Oddman1" or "Kkyaing" or something. Can you at least do that? Do you understand what I'm saying? Do you follow me pathetic jobless? Look at your pen name MokeHimKha (wrong spelling should be MokeHinKha). You are a "food" (or fool) fish soup food for everybody to consume you. You are at the mercy of everyone? True or false? Answer me.

Go ahead choose stability under the fascists and work and live like a slave. It's your choice. You got yours and I got mine. Is that a problem?

Have to go to work (I am NOT jobless OK?). Will talk to you MokeJoke when I come back.

Comrades,

We, the OPPOSITION against local fascists are gaining. We give Than Shwe and his CLIQUE ample time for them to release all political prisoners including Aung San Suu Kyi till February 12 UNION day and if not we all know what we have to do. Our commitment towards freedom and justice is in the history of Burma for generations after generations. We will not allow fascists foreign or domestic to rule. We will fight to the end.

Get This.....The first indication of Than Shwe's CLIQUE (SPDC) retreat since 1990. Yes, the first retreat has happened "AhYoanThit" in English "Dawn" according to the published statement in Irrawaddy website (I want to correct it for the definition of "AhYoanThit" should be "New Dawn or New Insight"? and the definition of "AhYoanOo" is "Dawn") bi-monthly newspaper published by the opposition forces INSIDE Burma.

http://www.irrawaddy.org/article.php?art_id=9867 I think the opposition NLD should create a website of its own for International media and information purpose.

Mynmyat, MokeHimKha and readers,

I admire the interest in the subject of forming a new government because that is what will be right for burma-myanmar. Everyone knows that except for some members of SPDC.

It is clear to me there are many points of view and strong feelings.

It is also true that a single vision will be more useful than many competing ideas because they could conflict with each other.

My suggestion is to create an online system, a government system where all the points of view and feelings can be soberly discussed voted and merged into one true vision that will eventually assume government of burma-myanmar. My wish is that the process will be accomplished peacefully and I am looking to the Monks for the right ideas because I believe they have the peaceful ideas that can work.

Re:Forming Federal Government

Posted by Mynmyat - 2008/01/08 17:19

Nayting,

Of course if it is done in a peaceful way that is the best. Daw Suu is pursuing in a peaceful way for many years with no fruits. In reality spdc's conduct is never in a peaceful way. How many times did the militancy fascists had murdered the people of Burma since 1962? How many times not to mention the internally displaced people of Burma (ethnics)? The local fascist ruled Burma in one way and that is through violence. These fascists never solved problem through peaceful means. Burma has lost her independence to her own local fascists. Burma has become a slave nation. Some work overseas as slaves to their bosses of Singaporeans or Chinks or Japanese etc and some work at home for the local fascists. The downgrading of Burma is at the lowest level. Lower than Thailand or even Bangladesh. Now there is nothing to be proud of Burma.

It is about time to change the illegal and vicious Government of Burma. MokeJoke mention "facto or wacko government" and I proposed a "Federal Government". So far I had seen the creation of a UNIFIED Front/Movement (12 branches) called SCMM (Steering Committee of Mass Movement) and they give an ultimatum to spdc to release ALL political prisoners including Daw Suu by February 12 Union day. I do not expect spdc will do it for it is recorded in history the mental retarded spdc never see the goodwill and goodness for the people and the nation and that is why the nation is in chaos. MokeJoke blame the chaos to the opposition (victims) and don't mention a word to blame the perpetrators or doers, the spdc. Not a word.

Burma's problem will never be solved WITHOUT the participation of the ethnic people for 60% of Burma's land belongs to the ethnics. A Federal Government consisting of Tripartite Factors namely the military, opposition and the ethnics. In this process, spdc is the stumbling block and it is Than Shwe's clique that is the obstacle to peace and prosperity. I see it this way and the others see it the other way. SPDC 's mentality thinks they can stand the severe pressure of sanctions by living out with Burma's natural resources and that is why they stubbornly dig into trenches (military mentality) and stay put and in the mean time the people of Burma suffers and the nation goes down. They don't care nor they have any emotional feelings. All these local fascists sees is their well being and staying in power. That's all. For them nothing else matters except their power and wealth. They will even sell Burma to China and Burma become a satellite province of China if they had to. This kind of mentality these thugs have, so it is dangerous for the people and the nation in the

hands of these high treasonable thugs.

If people want Burma to prosper, the Government needs to be CHANGE and CHANGE for better and not for worse. Ne Win is bad, Saw Maung is worse and Than Shwe is the worst of these 3 dictators. Burma will be poor under these rulers. No doubt about it. All I want to say is, if people and the nation want to be SLAVE then stick with local fascists disguise in any shape or form and if PEOPLE want to be MASTERS of their own land change the government that murders them and build a government that looks and protect the interest, prosperity of the people of Burma. They have choice. The choice is theirs. Please don't cry if they stick to local fascists and poverty ruins Burma. OK?

I had posted many links to Monks videos in this topic. Look at back pages and you will find.

Regards,

Mynmyat.

Note: Not only build a Federal Government but also draft the Federal Democratic Law (constitution) that supercedes all states' laws.

Mynmyat,

Yes I agree.

Right now we are three interested bloggers and 50 or 100 interested readers.

If this were a town in the mid west a century ago we would meet at the town hall and decide what to do.

I also believe strongly that there are good men and women in the Burma Army who share our views but have to keep silent because of the military discipline

So I suggest we meet online and make the first steps towards a common vision. Sober and together, it's not so important what we agree to do but that collectively we have a way to agree.

A system that grows is what will accomplish something useful eventually. Now 100 tomorrow 120 and so on.

We can be gentlemen and gentlewomen and civil and represent a common purpose.

Because most people except for a some SPDC want a new way.

Although you your husband and many others are taking the pain of ruthless repression and oppression from militancy fascists I want you all to know the world is watching and acknowledge your bravery and suffering. I know life under cruel repression is unbearable and yet you as a female and newly mother, sacrifice your life in just cause of freedom and justice. I know just like Daw Suu and Min Ko Naing, there are many brave men and women of Burma who are willing to suffer the heavy repression of local fascists led by monks killer Than Shwe and his clique. I just want you all to know that truth and justice stands beside you and the most powerful democratic nation on earth stands with the oppressed people of Burma. China may side with the ruling junta for their interests but United States all along is against the junta and against injustices and stand with the oppressed people of Burma. The world knows about you Nilar and about your family although you are in hiding places and may not know. Your courageous work is acknowledge by all of us who loves freedom. From this forum I honor and regard you as one of our heroes of our time. Hold on tight and be alert Nilar. Millions of PARADOXANS can relay this message I had written in this forum to you where ever you may be. Although I do not know you personally I admire your courage and intelligent moves that you had make. I believe strongly your shining days will come and Burma will be free again from the local fascists. The struggle is on going and the fight is getting intense. Be careful Nilar for you are one of the rare species Burma ever got! We cannot afford to lose people like you. Thank you Nilar and your family's sacrifices. Thank you.

May the FORCE visible and invisible be with you, your family, your comrades and all freedom fighters.

I want to comment to this link from Irrawaddy website. http://www.irrawaddy.org/article.php?art_id=9893

I prefer John McCain out of the three potential US Presidential Candidates. Why? Because he is HAWKISH and well seasoned, experienced leader. He can be a good President (or) Vice President for US and beyond. In this volatile world we need a strong, experience HAWKISH U.S. President indeed. I strongly believe Presidential hopeful John McCain is best suitable for US, Burma and the world and will be the right person at the right time/era not to mention he had sacrificed much for United States of America during his entire life.

I pick John McCain out of the three.

Re:Forming Federal Government

Posted by Mynmyat - 2008/01/09 21:31

Naying,

I accept your notion that there are military personals that want change. If you look at the links I posted, you will find soldiers are being treated as servants for their commanding officers. This is abuse of military institution. The top brass abuse anything they can put their power on including rapes. I sincerely do not think the military under womanizer, psychopath and monks killer is disciplined. I called it fear. Fear of losing their ranks and put into jail. Even Generals are put into jail because they refused to kill innocent monks. The leaders are the perpetrators and they should be prosecuted by International Criminal Court. I would like to suggest to find high ranking officers to infiltrate into the inner circle of Than Shwe's clique. Remember Ne Win was house arrested by his own high ranking officers/follows and died in detention. The same technique should be used. The very followers' betrayal is the key to remove the unwanted top criminals. Among themselves each of them watched their back for this is the way of Burmese military under these 3 thugs.

I know there are some officers that can do the job if they are brave enough. Any way Than Shwe days are gone for he is ailing and unhealthy.

Again my advice to the opposition is to infiltrate into Than Shwe's clique <http://www.mizzima.com/Foto-2008/Jan/than-shewbig.html> for that will be the ultimate change for Burma and Burmese military for the division between the clique and the rest is mounting deeper and we need like minded military officers to join in the revolution.

I will re-read your last post to me and steady carefully and will response for now I have to go for some important matter and will be off line for a day or 2.

Naying,

Here's the response to your last post to me. Yes I agree we meet here AO forum and exchange views how to change AND free Burma from the evil iron grip of domestic fascists. Yes, I agree to disagree and I will try my utmost to be civil and gentle. When I go gentle these hooligans cut me down as gay or ahyu/maniac or something. They are the ones that makes me very angry. They are the ones who are so rude and insulted me many times on the net. They are the ones who discriminates and ignorant and arrogant or act like I never exist just like they treat to Aung San Suu Kyi and never treat me nice not to mention their disgusted mentality. Most of them are the same. Concerning with the mental status, Burma is the same. I've been used to that for decades. They are the ones oh I can go on and on. Remember I lived among them for many years and I know their attitudes, behavior and their conduct. Never mind that let's go back to the topic of creating a FEDERAL GOVERNMENT. Do you seriously think monks killers can create a democratic Burma? Do you? As for me I don't think so. Of course they can create "deceptive democracy" with cosmetic ways and forms. Murderers are murderers. It is in their blood. You think monks have the way. A peaceful way huh? Well in reality they are after monks and monks are vanishing and running away from Burma. What do you say to that?. My opinion is to cure a snake's bite, a snake's venom had to be used. To defend smallpox disease, a shot of smallpox bacteria (smallpox vaccine) had to be injected into the human's body so as the flu. That is my understanding and so the same goes with the militancy fascists. To get rid of militancy fascists, militant "good and smart/wise/intelligent" officers are needed to go against them. Military must be confronted by militants (foreign or domestic) NOT monks or students or others to be

effective. That's my concept. Burma needs true patriotic officers that does not look for their own wellness but for the wellness of the people and the country. People like Bogyoke Aung San for example. Bogyoke Aung San never feel the taste of wealth and yet he led the Burma Army and give his life for the nation. Those kind of Bogyokes I am talking about. Burma needs many Bogyokes like Aung San. These thugs know and they cut down Bogyoke Aung San and even take his picture out of Burmese money, don't they?

My concept is the entire military institution of Burma needs to be reform and led by true patriots and no humbug bull crap Generals. They are sleazy and sly and be careful for their can make "green" into "red" and "red" into "green". Deception is their tool

I bet the entire population that is born after 1962 at least will have a relative in the military. They had made Burma is OWNED by the military and the people are all military related zombies including those who reside in foreign countries (no more citizens). So it is kind of hard to change for the better. Burma is in a long ride to nowhere for many years even when there is democratic government installed or elected.

So I do wish "good luck" in this hard and tedious struggle for true Independence from "domestic fascists/home grown fascists" that rule Burma for so long. It looks to me home grown fascists are more wicked than foreign fascists.

Regards,

Mynmyat.

Nayting,

One more thing for the record, this is the first response I got on my first post back into AO "new" forum. This is the first response http://www.asiaobserver.com/component/option,com_fireboard/Itemid,453/func,view/catid,3/id,4100/ from PharGhaung Mingyiminkhaung so don't be surprise for every action there is an EQUAL reaction. It is the universal law!

Check my profile, go to forum, click on it and go to my very first post and you will see the very FIRST post was respond by a nice, civilized gentle greetings, Huh? with a very nice, gentle and kind civilized manner. I think many of them have "serious" attitude problems and that is why Burma is in deep shit with people like that from top to bottom.

AFTER joining the AO a little over a month (Dec 7, 2007 to Jan 11, 2008) this is my analysis concerning with Burma Forum. WE as members have an F- team and they are as follows.....

- 1) "thunderboats" from Myanmar Pyi (what an irrelevant name for his country) a person who paints the sky with all sorts of irrelevant rubbish. He turn chaos into paradise and poor into rich. Criminals into victims and victims into criminals. What a magician! Reality into irrelevant rubbish.
- 2) "Oddman1" who calls the Myanma Alin newspaper Chief editor, the lousiest newspaper on this planet that prints, published all sorts of boring propaganda rubbish for many decades that the people of Burma used it as "toilet" paper for nature's call.
- 3) "Kkyaing" a Buddhist fanatic freak (out) who thinks Buddha's teaching solved all problems in fact the very Buddhist monks (Buddhism teachers/preachers) are gunned down in cold blood right in front of the world's eyes and monks are fleeing disappearing into thin air.
- 4) "MokeJoke" who is so polite and call me "hi" as if I do not had a username. What are usernames for? For identity and to "use" right? Well, we are living in a civilized world and had to expect this kind of gentle and polite behavior.
- 5) "PharGhaung" who is mentally retarded and all he or she can think about is mental problems and accusing someone ON THE NET that he don't even see as "maniac".
- 6) Last but not least we have a she who lives somewhere in Europe and not a Burmese citizen any more BUT pay regular "yearly" visits to Burma for her own personal interests or affairs and want to give to the Repressive Regime, the visa issuers a little favor by jumping on board F-team and give her impressive enlightenment of doing a little favor to the regime for her yearly personal affair/interest.

What a team to make Burma prosperous with corrupt free DEMONgraphic insights. Well, birds of the same feather will flock together for their likeminded nature. Now don't blame me when I posts rubbish when they can. Fair and balance is the name of the game in this Burma Boxing Bout/Ring that I enter.

Mynmyat,

I would like to acknowledge your in depth views and opinions about burma-myanmar because it stirs my mind and makes me understand better what goes on over there.

I feel challenged to make a proper contribution to this forum and to burma-myanmar because of the serious and complex problems to be overcome. I hesitate at every blog because I wish to do the right thing, wish to make a difference.

I know a 9 year old boy who told me a story about his mother. She was sitting at the table when he told the story. He said that one time his mother called him a dingleberry, she had said "you dingleberry". Being 9 he had not yet come across that word so he opened the dictionary and looked it up. The definition he recited from memory was a dried piece of fecal matter that hangs between the hairs that surround the anus.

Mynmyat the 9 year old's smile went from ear to ear telling his story and rather magically so, his mother was as proud and pretty as Aung San Suu Kyi with a red flower in her hair and I wish one day I will sense a smile on your face like that because considering the quality of your contribution you have made you do deserve to smile like that little boy did.

I want to present to the world one example. It is just a picture. Ordinary people will see as an ordinary picture and will not notice like I am. Here's the picture that the world sees.

<http://www.mizzima.com/Foto-2008/Jan/than-shwe-ailing-big.html>

What does this particular picture tell us? A picture can tell a thousand words. First of all it shows Than Shwe is physically weak. Second, he is surrounded by heavily armed body guards/soldiers which means he knows his life is in danger and needs protection. Third, the picture that was taken is from a person or persons who are very near to him or at very close proximity. Fourth, this picture turns out into the hands of the opposition and now the world sees his true situation.

What does that tell? To me it shows the effective "infiltration" of the opposition. The connections of the opposition is very clear that they can go so close to Than Shwe's circle that in this electronic and information age the very picture of Than Shwe's private life is compromise through the connections of the opposition and "display" (the picture) for the world to see.

Here's another link that I want to share <http://www.mizzima.com/MizzimaNews/News/2008/Jan/30-Jan-2008.html>
Sooner or later they have to deal with Aung San Suu Kyi. They tried very hard to ignore Daw Suu as if she never exist. But truth is truth and truth cannot be change no matter how long it takes. Suu Kyi is there inside Burma so am I here. Like it or not the truth will prevail in the end. Than Shwe knows he is nearing his end. He must prepare something before he pass away. My dream (my first post) tells me he will not see 2009.

Comrades,

Although I am a BAMAR (the majority race), the minorities like SHAN, KACHIN, CHIN, KAREN/KAYIN, MON, KAYAH/KARENNI, RAKHINE etc. are my brothers/sisters and they will have the SAME and EQUAL opportunity and respect like MY own race/culture/citizenship. The NEW and DEMOCRATIC "Federal Democratic Constitution" will protect ALL of us and keep the UNION intact, UNIFIED (with true meaning/essence) as ONE nation, ONE citizenship, ONE people, ONE Constitution (federal) UNITY through DIVERSITY with RESPECT/ACKNOWLEDGEMENT and EQUAL rights and justice for all of us to pursue for prosperity, joy and laughter (happiness) without any MENTAL reservation or fear to any one including the ruling Federal Government for WE the PEOPLE of UNION/FEDERATION of Democratic Burma shall overcome all obstacles, big or small to achieve our FREEDOM, JUSTICE and INDEPENDENCE from all fascists, foreign or domestic, civil or military and WE will defend those 3 precious factors (Freedom, Justice and Independence) intact no matter how long it takes, how much it costs and most of all how many lives we will have to sacrifice for these 3 pillars are priceless and most dear for all of us to live in peace, harmony and happiness. WE all are born EQUAL and no one shall bully another any more. Let the world sees our guts, courage, bravery and WISDOM to achieve this and let them see freedom, justice and Independence never comes cheap nor easy and we will RESTORE dignity and integrity to our nation and the people for the world to see that we are a nation of leaders/innovators and NOT followers of others (nations) for we will bare any burden, oppose any foes (foreign or domestic), defend all friends and most of all sacrifice our lives and our "Past Patriots" (dead Patriots including General Aung San, leader of 30 Comrades, father of modern Burma Army/Military, father of Aung San Suu Kyi icon of current Burma's struggle for freedom and democracy) who TRULY and REALLY (not just lip service) give their lives in the cause of freedom, justice and Independence.

The "Federal Democratic Constitution" shall SUPERCEDES all States (minorities' states) Constitutions/Laws and it shall be the ONE and FINAL law of the land we called Burma or whatever the name will be chose or voted, for example like United States/Federation of Burma/Myanmar.

Like I said.....Never Ever lose your PASSION to DREAMS for universal truth of EQUAL birth rights for each of regardless of race, religion, culture will endure and OUR days of freedom, justice and Independence WITHOUT any fear will definitely come. WE will keep our PASSION to DREAMS alive, strong and well.

I support/acknowledge this kind of group who are willing to create an environment that is truly democratic, fair and balance. <http://www.encburma.org/> It looks like they are in a process to draft a constitution <http://www.encburma.org/fcdcc.htm> that is relevant, realistic to all ethnic groups. The idea of a "Tripartite Talks" is most effective and meaningful building a modern, democratic and Federated Burma. The union will last longer and every body will be happy and legitimate. The wisdom of creating a true democratic Constitution is the key to success. I do not think one sided, unwise and flawed constitution rubber stamp by the military is valid nor legal in the eyes of all people of Burma including ethnics/opposition thus will be doom from the very beginning. SPDC had already wasted many years of drafting a constitution that never materialized nor implemented. It's about time to be serious and practical if Burma wants to be one country, one people, one constitution. The so called 400,000 troops military is useless in making small armed resistance eliminated let alone to mention making the entire country united since Burma gain independence from the British in 1948.

I want to elaborate on the previous post of mine. Although I support the ENC's effort to create Federal Constitution I would like to "amend" some of the facts or principle. The main principle is the so called "Pinlong Spirit" which is "democracy, equality and self-determination". These 3 principles I would like to suggest the 3rd factor "self-determination" is totally flawed from the very beginning and that clause is the root of General Ne Win's military take over the nation in 1962 and thus chaos started because of this clause. To me it is not realistic nor wise for "self-determination" for this clause can cause the states to break away and emerge independent states like Yugoslavia thus weakening the Union itself. In this 21st Century we can find innovative ways to avoid the same mistakes of "Pinlong Agreement". We must FIND ways and means to avoid the break up of the UNION. The union must be intact while at the same time the well fare of the ethnic states must be equal to majority race Bamar/Burmese. In the Federal Democratic Constitution it must be declare clear and precise that no states cannot break away from the Union thus this "self-determination" clause must be drop.

Analyzing MokeJoke's quote "Analyse of small bombs blasts in Myanmar":

Let's us examine on the small bombs blasts in one week in Myanmar.
The junta claimed that they were made by ethnic Karen rebels KNU.

Thailand Based analysts of the opposition side such as Win Min and Htay Aung claimed that they were planted by Junta itself to unit the Military (<http://www.mizzima.com/MizzimaNews/News/2008/Jan/33-Jan-2008.html>)

There are two hypotheses on this matter:

1. Assume that that they were planted by the Junta itself. What should be Junta's reason for this?

Certainly the main reason must be (not single) for make understand the People of Myanmar that there are chaos and danger of instability in term of political and economic.

Bomb blasts - The innocent people killed

- Tourism will be highly touched

- the decline of already declined economy in general will follow

If theses blasts will continue people might think finally the iron hands will be still necessary to govern the country. Or even they will pray for the road map be completed as quickly as possible. Therefore the military has its won reasons to do it.

Wrong, the majority of people do not accept the notion of just because of bombs here and there iron hands will be necessary to govern the country for all the people want is to REMOVE the iron hands that placed upon them for 46 years. The people are fed up with the mishandling/mismanagement of the government and making the nation and the people poor because of them. Some even want foreign intervention and bomb (air strike) Naypyitaw.

Now why the analysts of the opposition side give us the thinking of it must be junta itself who plated theses bombs purposely? To unit the military? Might be true but not the main reason. Because the opposition wish eagerly the disunity of the military - by saying this only – it could disunite the military – give a feeling that may be our army is destroying the lives of our people etc.....however the analysts know well that Myanmar military can hardly be disunited.

When military split, the country will collapse. Anyway why should the opposition's analysts say it was them - naturally everybody protects its own side.

The thinking of uniting the military by planting bombs here and there is absurd. The concept of disunity within the military's top brass is a proven and known fact and that is why General Ne Win was house arrested and so is General Khin Nyunt sacked and detained and sentenced for 44 years. The point is, the fact of the matter is, it is NOT the disunity of the entire military the people or opposition are seeking, it is the disunity of the top brass they are seeking and it is the nature of Burmese military's behavior of sacking each other and mistrusting each other (top circle). Right now Than Shwe and his clique has the upper hand and control the military so far. Who knows what happens next for the Burmese military is hard to predict for no one trust one another not to mention the nature of power grip and the policy/nature of crimes on one hand and corruption on the other hand ruling system of the regimes (with an 's').

2. Now suppose that it was the opposition (or ethnic rebels, ABSDF or one of the opposition organisations)

Why they do it?

They know that it is almost impossible to kill the top 5 of the military Junta. Then why they harm the innocent people. They have no other choice. The exiles, ABSDF, the opposition have the good reasons to do it because if the road map will be implemented successfully, their lives will be finished with it. The road map is equal to their end. In the new constitution, almost all MPs elect of 90 will be barred from "be candidate" whether they are imprisoned, exiles. NLD must need to recruit new ones for the new elections. The exiles and the activists inside will be barred from participating in politics (for the people inside for 10 years and for the exile – no chance at all to return back to the country).

Road map is the end of the exile politics as well as for those living (not IDP) at border between Thai and Myanmar such as AAPPB, The activists and many others.

Therefore thy have the good reasons to plant the bombs inside.

In this new and innovative age of 21st Century, no need to kill the top brass to bring down the regime. Smart and wise ways can be done to topple the regime for example like creating situations and circumstances that will loosen up their grip and change in the top. Than Shwe himself is facing the changing DNA within his body. Burma will change this year like it or not. The stranglehold tightening of the noose around top brass's necks had been implemented year after year making spdc to breathe harder and harder. Choking their financial fields is one of the many ways in bringing change in Burma. SPEAKING OF FINANCIAL FIELDS THE NATURAL RESOURCES OF BURMA IS NOT FOR BURMESE (they are poor) BUT FOR CHINESE AND OTHER FOREIGNERS (they become richer and richer because of military rule in Burma and they in fact wants to see the rule of military in Burma). THIS IS A SAD FACT BUT IT'S TRUE. The mounting pressures of the UN is building including China's behavior. Change is inevitable and the regime or China is no exception. US will elect New President this year end (November) and the changing of the guard in the US will affect the whole world including Burma.

Now lets us examine who will get the advantages of bomb blasts – Whoever involved in these bomb blasts, the Junta will get always the advantages of it - of cause!!!
People will be always the victims as ever and for ever!!!

Nobody gets advantages in the bombs blast in Burma for everyone lose when chaos happen including the military for there are ramifications connected to bombs blast in Burma either directly or indirectly. Even Than Shwe could be removed by his fellow officers just like Ne Win/Khin Nyunt was in the past. The norms of military coups are nothing new or common in Burmese military history. The stronger survives while the weaker (Generals) lose in the power play/struggle of Burmese military political field.

Comrades,

Prudence, Perseverance, Persistence is the Key.

The "poor" judgement regime is now hurt by the advancing tactics of the opposition. The regime weapon of hide and kill actions had been "exposed" to the world by the bloggers, electronic messengers of the new generation of Burmese "new" revolutionary personals. Always remember, evil never likes transparency nor justice, darkness never likes lightness. Evil always hide their conduct and never wants people to see or know what they are doing for they had their guilty conscience of doing wrong and wicked things. The regime wants to isolate the nation and wants to be shun from outside world and inside they close the eyes and ears of the people and make them deaf and dumb. They use terror, torture even death as a weapon or means to achieve their goal of keeping the people submit to their ways and demands. Their tool is deception, their intention is wicked/evil. They implant their agents inside and outside of their cocoon country and distort the truth. That is their way. Comrades, keep on revealing the truth. Tell the world what's going on inside their cocoon country by having cells all over the country distributing messages, pictures, videos alike and let the world knows the constant struggle for freedom from fear and repression. The evil side is now on the defensive and tries frantically to squash the electronic communications and yet they will not succeed for time and tide is NOT at their side. The "Saffron

Revolution" that started in September 2007 will succeed if we continue our struggle at an extraordinary pace and perception with prudence, perseverance and persistence in mind for they are the doors of success or gateway to freedom. Keep the world in focus on what's happening in Burma. Reminding the world constantly of the cruel events of September Revolution now and then and incite awareness of the cruel intentions of the regime, an illegal, unwise and stupid regime that is in place in Burma for many decades.

My paradoxes perception is working/becoming reality for the regime is blocking or distorting the advancing blogspots of the new revolutionary Burmese.

Burma will not prosper under the rule of Than Shwe led spdc:-:

WHY? Because the top circle has serious mental problems not to mention Than Shwe is mentally impaired psychotic self-deluded leader. He and his clique is the main reason for Burma's woes including the death of many monks and monasteries being sacked.

Any mentally sound people can see the results of these rulers and the status of Burma among world's advancing nations. All her neighbors are moving forward and improving while Burma is still in a prehistoric stone age where human basic necessity of electric power is not adequate. Look at Thailand for example, a nation that was once less prosperous than Burma. There is no way Burma can compare to Thailand's stand among International arena in economic or political or military terms. Burma is no match to it's neighbors let alone to mention her immediate big neighbors India and China. Currently Burma is for China for whatever China needs Burma must supply in obedience. Remember, under spdc rule, Burma is NOT for Burmese, Burma is for Chinese, Thais, Indians etc.

If this not a puppet conduct then what is?

http://www.irrawaddy.org/article.php?art_id=10000

China will continue to defend and impose their needs upon Burma as long as they had their puppet Generals installed.

This is the truth and the reality. China wants mentally impaired Generals in place in Burma to exploit the natural resources of Burma sucking out completely from Burmese people. Burmese people will be left poor, malnourished, sick and fear to the point where there will be distrust even among ordinary family members and to the point Burmese people become slaves and beggars, a norm I never heard before when I used to live in Burma. This is the first time I heard, seen beggars emerging in Burma, a natural rich/wealthy nation I once lived.

China is the enemy of the people of Burma. Torturing Nuns and Monks is the norm of this cruel and evil government spdc that China supports. <http://whoiswhoinburma.blogspot.com/2008/01/insein-prison-news-nuns-and-monks-in.html> I strongly believes history repeats itself. China's turn will come when the misfortunes will rain down on them. China is totally nervous of Burma becoming free and democratic. They are doing everything in their power to disturb the process of freedom in Burma or at least tries to slow down the process by standing and defending the junta. The people of Burma will not forget who is their friend and who is their enemy. History is written and events have happened and recorded. What goes around comes around when the right time and era comes.

Comrades,

EX- Dictator dies. <http://abcnews.go.com/International/wireStory?id=4196573> The EX- dictator of once Military rule Indonesia face his fate. Suharto will never sees 2009. The year 2008 had exterminate the "X" into exit to dust. Another one bites the dust! It is a known fact that this General ruled Indonesia with iron grip for many years. Of course those who love tyranny and dictatorship will morn to his death. Like I said, in due time one by one, dictator by dictator, tyrant by tyrant mother "nature" and father "time" have their own plan to get rid of these anti-freedom demons.

In Burma, we all know the situation of General Than Shwe. In my dream, he too will not see 2009. We all know Than Shwe's health is not very good. On top of that, his ill actions and deeds will compond upon him for what he had done to the once wealthy nation into a prostitute/disease/slave/beggars/poverty stricken nation. No matter how much his clique and its axe handlers do, write, speak, the fact remains the same. Burma or Myanmar is NOT the country I once lived for the status had gone downhill in all sectors especially the moral/mental decay. Burma is nowhere near out of the woods of poverty let alone to become a modern and developed state. Burma is a fail state with many problems, heading towards chaos after chaos. A nation that can't even "talk" or communicate to each other let alone to reconcile. The opposition had given ultimatum till February 12th (Union day) as the last day and we are approaching quickly to that date. After that date we will see more chaos and the room for reconciliation is getting smaller and smaller until there is no room or hope left.

Prepare and be aware for the worst comrades.

Comrades,

Daw Aung San Suu Kyi had declare to warn her people....."prepare for the worst". That is her message revealing the true nature of spdc. Spdc is not sincere nor willing to reconcile or compromise. They will keep the "status quo" just like before the September Revolution. They (spdc) know nobody can do nothing including the UN. Bush is stuck up, UN is toothless, ASEAN is a lame duck and they put China, Russia and India into their pocket.

<http://www.burmanet.org/news/2008/01/31/inter-press-service-junta-has-no-plans-for-political-change-suu-kyi-marwaan-macan-markar/>

<http://www.burmanet.org/news/2008/01/31/associated-press-media-group-myanmar-junta-steps-up-policing-of-internet-arrests-blogger/>

The junta is arresting bloggers like me. Why? Because it hurts them and the steady advancing of bloggers that are against them is gaining momentum and the junta is on the defensive now. They want to get rid of the 21st Century Cyber Warriors (bloggers). They can fight in the jungles but they cannot fight in the Internet, the world wide web for there are many ways the bloggers can dodge them and outsmart them in this field where they are most vulnerable.

There should be constant connections, communication among ALL oppositions abroad or within Burma. My advice to you all is to create a kind of ***Central Strategic Command Cyber Center*** be established abroad and planted individual cells within Burma to counter the offensive of the junta against electronic messengers/bloggers using cell phones conveying text messages/vidoes COVERTLY.

Regards,

Cyber Warrior.

I would like to comment on the topic of "3 Governments for 1 country" by Ko Htun Aung Gyaw. <http://burmadigest.info/2008/02/01/three-governments-for-one-country/>

First of all I would like to thank the author "Ko Htun Aung Gyaw" for elaborating and explaining the true situation of Burma's existing Governments.

1) SPDC:

This State Peace and Development Council, the current ruling illegal Government of Burma/Myanmar is well known I had nothing to add nor will I support.

2) Interim Shan Government, Federated Shan States:

This Government represent only one race, one section/part of the UNION thus in my opinion it does not benefit the entire country. I do NOT support this kind of Government for it is not only unwise but also an excuse for destruction of the UNION.

I am interested on the third Government for it represents the entire COUNTRY although many do not for I am NOT like many anyway....

3) The National Coalition Government of the Union of Burma/NCGUB:

I learn that the main obstacle for NCGUB to become effective is the rule or principle of only "1990 elected MP" officials can be "qualify" to participate in this exile Government. This principle drastically cut down the scope of "able" personals to join and create a meaningful and effective Government. Not that I disrespect the elected MPs for I honor them whole heartedly but since the election took place 1990 there will be limitations on members not to mention the moving or advancing age factor. It is said and written that the advantages of aging is gaining more experience and wisdom IF the individuals know how to use them and implement them.

Second, the distant location of these MP (six are spread out) makes this Government ineffective and little progress is seen in its 17 years history of formation. I disagree on this for in this electronic age location or distance does not matters anymore. We can do conferencing regularly (just like I am doing now), communicate effectively, efficiently and instantly where ever we reside. All we need is the funds and the (high tech) tools.

I agree with the author that serious/significant change is needed in NCGUB if we want a modern, strong, effective, vibrant Government in exile that rivals or even superior than SPDC for we have many advantages by living in a free and democratic society/land not to mention developed modern nations. Change in the ways of thinking, strategizing, forming, funding, implementing, energizing, communicating, compromising, attitudes and even eliminating "some" out dated irrelevant principles to accommodate or in par with the present time/era, circumstances and situations. Flexibility is the key and wisdom/knowledge is the cutting edge to attain success and make things happened in the way it should be. I hope this particular (my) message, along with Ko Htun Aung Gyaw's "constructive criticism" will convey a hopeful and meaningful change of strategy in NCGUB for the benefit of all, both abroad and inside Burma/Myanmar. I encourage all to speak out fearlessly and demand for change not only on SPDC but also on NCGUB.

Ways to form one unified Central Government in exile:

An elaboration to the last question of "how it should be form and what kind of people should be included".

THE exile Central Government should create 3 branches.

- 1) Elected MPs will be use as figure heads with the participation of able, professional intellectuals and work together taking in charge of finance and planning and enforcing/implementing the democratic laws. (Executive Branch)
- 2) Lawyers taking in charge of creating democratic laws that reflects the needs of the UNION including the National Constitution based on freedom and justice. (Legislative branch)
- 3) Technological geeks/technocrats creating tools of modern high tech taking in charge of telecommunications, coordination and information. (Correspondence Branch).

Then a separate "Think Tank Enterprise" (not Government but an organization independently exist/function or not affiliated with the exile Government) consisting of innovative philosophers, thinkers with credibility credentials to guide plans,

guidelines and strategies to build democratic Burma and reflects/accommodate with the world's current situations and circumstances taking in charge of creating ways and means for the making of new democratic Burma happened. An Organization of like minded intellectuals who are interested for the betterment of strong, free and democratic new UNION.

Just an idea!

This is the kind of news I want to read, see and hear. http://www.irrawaddy.org/article.php?art_id=10154 Reform to form a newly centralized, effective, efficient Government in exile is needed. Senior elected MPs should very well understand that new blood/generation is needed to make a powerful government in exile for Burma. We all know and agree Burma's political situation is NOT stable and it is better to be safe than sorry when Burma really needs a "Transitional Government" or "Emergency Caretaker Government" when the shaky illegal regime falls. A ready made prepared Government that is ready to step in when Burma needs them. Forget about SPDC and let them walk their own road which is heading towards dead end. SPDC is morally bankrupt and there is no hope and vision in their way to imposed a self ruling system with handpick fake delegates that is not only outdated but also unfair, undemocratic not to mention it is imposed by an illegal regime.

In my opinion, there is no way out for the regime to get out of sanctions nor to reconcile with the opposition they so much despised. If the exile Government waits on that, people will grow old and nothing tangible good results will happened and Burma will be stagnant for another 50 years or so. We MUST move on forward, we ARE moving forward and thinking positively for the future. Of course communications with the oppositions within Burma is a must to keep updated and seek for their approval after all the exile Government's goal or aim is NOT to "replace" the NLD but to prepare as a "stepping stone" for the NLD for we are living, breathing in free world democratic society, an advantage to prosper, progress and free to do/implement what NLD couldn't do because of the repressive and oppressive nature of SPDC against the oppositions within Burma. We had to make clear to the opposition INSIDE Burma that we are friends and aiding and abetting the progress FOR nld. We must make very clear and sound understanding between the opposition inside and the opposition outside for we are the SAME COIN OF DIFFERENT FACES.

Daw Aung San Suu Kyi already declare, acknowledge and seek help for "those who are living and enjoying freedom, to use our freedom as an effective tool in support of promoting freedom for Burma" did she not? We must not sit idle by and stick to the old rules, systems and thinking but find innovative ways and means to make the 'reform' happened!

To the critics I would like to say is.....It is better to be ready and prepare or to be safe and sound than sorry and dismay when the time comes in call for necessity for the PEOPLE and the NATION.

It is time/era for reform for the National Government of Burma in exile. The lesson we should learn in Iraq is, to build a government AFTER the fall of Saddam's regime is very difficult and time/cost consuming. If there is a "prepared government in exile" ready to jump in and take control of the situation as "transitional government" Iraq will be a different story now.

The momentum to change for better is now and keep it moving forward. There is no such a thing as "too late". We are at the crossroad of defining our goal to make Burma a free, strong and democratic nation, a nation that enjoys true independence from fear and repression from both foreign and domestic evil forces.

We can do it if we compromise within ourselves FIRST who are living abroad and more likely, freely to make things happened in our favor. Now is the right time for in this electronic technological advance age, we the new thinkers, innovators, philosophers and intellectuals alike can create things that we cannot possibly do 20 years ago. We CAN do it for if there is a "will" there is always a "way".

"United through Diversity" should be our theme/motto to build a sound and unified UNION!

We will never forget nor ignore the blood monks had given in their struggle for peace, justice and freedom.

My opinion, Dr. Sein Win should reform the exile Government with significant changes for new blood, able persons to participate and create a unified Central Government abroad. It is time to make the exile Government effective and efficient implementing changes starting from top to bottom which means from Dr. Sein Win himself needs to change. The present strategies, principles and rules are outdated and needs to be overhaul drastically with new strategies and philosophies.

As far as I know, it is very rare for Burmese to unite for every single Burmese ego is too high to compromise or comprehend the value of mutual understanding let alone to mention respect. The ignorance nature brings down Burma, a once wealthy nation to rock bottom status. It is like an Army where all wants to be officers and no soldiers which is not practical. Burmese should realize that there is no such thing as "lesser" or "higher" for all men (or women) are basically created equal as one brain, 2 hands, 2 legs, 2 eyes, 2 ears, one nose, one mouth, one body one soul. Looking down or looking up should not be the norms of seeing or knowing things or persepctives of each and evey one. All should involve as a "team" participating collectively with acknowledgement to the contribution of each individual no matter what his/her status is in retrospect. Especially the ones on the top should be well aware of taking into account of each individual's value regardless of age, gender, religion, education or culture background and willing to accept the contributions of that particular individual's action. Agree or disagree is one matter, acknowledge and value is another.

Comrades,

Let us build a unified perfect Union that includes ALL races, cultures, backgrounds as "partners" and not as "enemies". Together with mutual respect and wisdom, we can do it.

The fight to create a perfect Union is on the rise and gaining strength and momentum. The stand for challenging the authority of junta is mounting day be day, week by week, month by month and year by year. The ethnic forces and the opposition forces will join hands and create a unified front to confront and challenge the legal authority of junta's hegemonic manipulation over other institutions of Burma. No nation on earth has the right for ONE institution to dictate OTHER institutions for if and when it does Burma is the perfect example of what happen to once rich and wealthy nation and proud and dignified people.

The compelling evidence of Burma is the profound proof of dogmatic disillusion doctrines that explain interference of one institution into other institutions that does not belong or appropriate occurs can ruin that nation and people.

This is the kind of regime when lost they nullified and IF win by their proxy political party they will accept and ratify. What

a foolish, idiotic mentality.
http://www.irrawaddy.org/article.php?art_id=10371

Not only they nullified the winning opposition party NLD they are imprisoning the NLD to total destruction so that there is no opposition left to confront them and their proxy parties can win. They are making sure their proxies win this time for they had learn the lesson of losing if it is done democratically, free, fair and justly.

The world knows this regime is the most hated and disgusted by their own people. No doubt about it. Even the Buddhist monks participated in peaceful demonstrations which ended in bloodshed.

The way the foolish regime does is a mockery to the entire world and acting with "to hell with what is right". They do it THEIR WAY or NONE!

Like I said many times, the only way is to eliminate these evil doers totally with absolute "permanent" sanctions tightening the noose more and more until Burma is heading towards genuine democratic principles and values. They do not want opponents for they know they are doing evil and wrong and the opponents are right.

What Daw Aung San Suu Kyi said was bloody right. "Prepare for the worst" folks for Burma is heading towards disaster AGAIN!!!

Federal Constitution:

The opposition forces had already finished drafting the new constitution. This constitution is parallel to the junta's constitution which is for the military, by the military, of the military and from the military constitution. Burma will be a nation deeply divided with 2 governments with 2 constitutions.

If junta had the right to do whatever they want, THEN....the opposition had the equal right to do whatever they want. This is called fair justice! Move on comrades, move on!

Re:Forming Federal Government

Posted by Mynmyat - 2008/02/20 05:43

This is my analysis on the agenda of spdc goal to retain military power and influences as "change clothes" civilian government. They had already declare their military constitution is finished and referendum will be already approved or pre-approved and the creation of pro-junta political proxy usda will participate in 2010 election which they already won in advance. They already decided "their" law (constitution), endorse it (referendum) and victory (votes) is already signed, sealed and will be delivered in 2010 thus creating another pro military civilian government will be born just as General Ne Win had done in the past. General Ne Win change the constitution in 1974, change clothes as Socialist Civilian Government with referendum, change the National Flag and so on. SPDC is copying the same scenario with the banner/slogan of "Disciplined Democracy" with the same military men changing civilian clothes and creating their proxy political party (usda) just as General Ne Win had his proxy political party NUP (National Unity Party) which lost decisively to Suu Kyi's NLD (National League for Democracy) party in 1990 general election.

What's new? Same old same old with different Generals. That's all. Burma will never come out of the hole as long as military involve in other institutions no matter which General takes over for their mentality is the same. After their changed clothes civilian government takes over, the nation will drag on with the deceive, gimmick civilian government known as disciplined or control democracy for some time and another peoples' revolt will occur again and the whole cycle repeats again with another General. Coups will be the common way of robbing the state power, a power that will never be handed to genuine and authentic civilians of Burma.

Burma will be always the follower of other nations for centuries to come until and unless the cancerous military involvement in other institutions stop for good. As long as military does not respect true human rights and genuine birth rights of human freedom and universal democratic laws, there will always be problems for Burma for generations after generations with no end in sight not to mention the on going longest civil war in world's history with ethnic people inside Burma.

Honoring the "Anti-Fascist Revolution Day" (March 27th) which also means a struggle against the home grown local fascist the military junta. Great and appropriate name for remembering the struggle for "total" freedom both internal and external fascists. Of course the junta will call it the "Armed Forces day" to deviate from the true and original meaning which is "Anti-Fascist Revolution Day" (March 27th). The opposition used the correct, authentic, original and appropriate name.

Unified Federal Government:

The militants have their way of imposing a forced constitution where oppositions have no voice or participation in fact most of the opposition members are in jail or in detention including their leader Aung San Suu Kyi. Militant minded election is to be conduct in 2010. Burma is in peril economically, politically, morally and militarily. Burma cannot even defend herself from foreign aggression either on sex trades or slaves trade or territorial disputes etc.

The only way out for Burma to achieve true progress is to acknowledge the existence of 3 major factors.

- 1) Reform on Military as an Institution and NOT as a Governance.
 - 2) Reform the Constitution that guaranteed the rights of all sectors including opposition and ethnics.
 - 3) Reform on creating Opportunities for the ethnics/opposition/military to participate in a coordinated mode of building a single Unified Federal Government.

Union to Federal ?

The Union troops of Myanmar had been build up for possible defense against Myanmar territory. The peaceful negotiation/talks failed and it is reasonable to be prepare for attempts of territorial encroachment by foreign aggression. Myanmar needs to be solid sound stable and strong politically, economically, morally, militarily and technically (modern) to confront all threats of aggression especially those that are so close/near and real. Natural resources rich nation like Myanmar should choose the path of intellect, informative and wise judgment to create Myanmar as the long lasting unified union.

Fresh new faces (new/younger smart generation) of intelligent leaders should led the nation and the people of Myanmar into the challenging 21st Century.
