
SPDC policy = NLD = Constitution.

Dear Patriots,

Somebody would like to know what Ma Su Kyi has done for Myanmar in her life

Well, the following is her Ma Su Kyi (a) Aung San Su Kyi (a) Mrs Aris) profile by U Aung Saw Oo, who worshipped her, like a Goddess.

19 June 1945, Born in Rangoon.
1949 -1957 Studied at St Francis Convent in Rangoon
1957-1960 went to India when her mother was appointed Ambassador
1960-1961 studies at Joseph and Mary Convent School in Delhi
1962-1963 attended Delhi University , studied political science and economic at St Hugh's College and was awarded MA with Honours.
1968 worked as research assistants in Department of Political Science at School of Oriental and African Studies in London.
1969 - 1971 assistant secretary of Advisory Committee on Administrative and Budgetary Question, United States Secretariat , New York.
1 Jan 1972 married Michael Aris , a British Tibetologist. They had two sons Alex and Kim .
1972 -1973 Researcher for the Ministry of Foreign Affairs , Bhutan.
1975 -1977 Catalogued Burmese books and periodicals at Bodleian Libery , Oxford University
1985 - 1986 Conducted research at Department of Southeast Asia , studies Kyoto, Japan.
1987 Conducted research in Special Research Department in Simla in association with allied publisher, Delhi.

If you study this profile, you will see without asking anybody what Ma Su Kyi has done for Myanmar and its people in her life, before 1988 . You don't need to as any Ponna Lay or Par Par Lay.

It is said that she wrote 4 (four) books as well together with her husband (1) on Tibet, (2) on her father, Aung San. (3) Basis studies on Burma and Japan culture and social structure and (4) intellectual life in Burma and India under colonialism.

If that was the case, I could have written 100,000 books.

This particular book number 4 which is " intellectual life in Burma and India under colonialism", according to Aung Saw Oo, was first published in 1900 (year nineteen hundred) 45 years before Ma Su Kyi was born. It is said that it was as Burma and India by the India institute of advanced study, Simla , in association with allied publisher , Delhi. So who originally wrote that book was not very clear. I may be over looking. Never mind that.

Now we have new draft constitution put to the people to approve or to disapprove. We need to look at the policy of NLD and SPDC closely on this issue.

The general Political policies of NLD led by Ma Su Kyi were to draw up a basic constitution together with ;

1. (a) representatives of the ethnic nationalities,
(b) representatives of the democratic forces
(c) experts and lawyers.
2. to unite all parties in the alliance and all representatives of the ethnic nationalities and work together for national solidarity,
3. (a) To establish the alliance with all democratic forces and then compete unitedly in elections which had to be free and fair.

(b) to form a strong government after the elections,

(c) to govern effectively and solve the future problems successfully.

This has been always the idea of or the first priority of or the dreams of all leaders of Myanmar. Who were the founding fathers such as Ko Aung San, Ko Gyi Nu, Ko Ne Win , later Ko Saw Maung or Ko Than Shwe. To make Myanmar as one nation for all people as one people in Myanmar as our lreaders have dreamed of.

We have to remember, and remember it very well, that Ko Aung San was not alone , Ko Aung San was not on his own. By calling U Nu as Ko Gyi Nu, there must be more then his age. There were mutual respects among our leaders in every aspects , I should say. Can we find any of those kind of respect today? I doubt it. Why God tok Ko Aung San away in his young age God alone will know.

Well ,who was copying who I am not sure. It seems to me that SPDC's policies and NLD's policies or the policies of the previous governments are almost the same , different words may be but with the same meaning for the same goal.

NLD's policy totally ignored Tatmadaw. Instead she questioned Tatmadaw and its leader Gen Ne Win sincerity, and honesty. When some one from within NLD pointed out " if anyone is going to get involved in politics in Burma, they should understand clearly about the Burma Army (Tatmadaw). If not they will not be able to either a leader or a follower"

When the National Convention was held in 1993 , NLD was taking part in it. Then suddenly under the instructions of Ma Su Kyi , who came out of the detaintion, they withdrew.

Before the elections of 1990 for many reasons NLD was not sure whether they should participate in the elections or not. In the end they decided to compete in.the elections.

Ma Su Kyi always look at Tatmadaw as Fascist Regime. This Tatmadaw was founded by none other than her own father Gen Aung San who fought against her (Ingalate husband Michael Aris's ancestors, her God father Goore Booth ancestors. Gen Aung San was the member of Anti Fascist Peoples' Freedom League, who fought against the Fascist Japanese.

Tatmadaw after General Aung Sa was took care of by U Ne Win. He and this Tatmadaw fought against all the multi coloured insurgents including Communists and White Chinese (KMT) who were supported by the United States of America. This Tatmadaw and many Tatmadaw men gave their lives and limbs to defend thuis nation of Myanmar, to protect the people of Myanmar, while Ma Su was enjoying her life, thoroughly.

How dared she accused Tatmadaw of being Fascist. If the Tatmadaw is Fascist, Gen Aung San himself was trained by the Fascist Japanese Army. He is solely responsible because he brought the Fascist Japanese Army into Myanmar.

As Ma Su Kyi is the daughter of Gen Aung San, genetically among other things she has a drop or drops of fascist blood in her.

Whatever it was, Ma Su Kyi and NLD and her supporters should be very happy about the National Convention and this New Constitution for future Myanmar.

If they support NLD, they should support this constitution, for this is not much different from NLD policies., except Tatmadaw participation.

Allegations after allegations, accusations after accusations of all sorts against SLORC/SPDC they made. As far as National Convention is concerned, as far as the new draft constitution is concerned and as a matter of fact, what SPDC has done is what NLD intended to do may be a little bit more. .

Who done it, is the only question. Who cares who done it, as long as it is done in the case of Myanmar, in the interest of the people, in the interest of the nation., in the interest of all the ethnic nationalities including Bamars. .

As a figure of speech even if it was going to be done by NLD led by Ma Su Kyi , nobody could guarantee that there would not be any opposition Like we had in Pinlon Convention in 1947 and 1947 constitution . Ma Su Kyi could not expect that everybody in Myanmar will say yes to whatever she says or does, like little kindergarten children.

Here we have to compare Ma Su Kyi to her own father Gen Aung San.

If she is better then Gen. Aung Sanor not? What made her think she could do it what her father could not do it? Does she think all ethnic minorities including Bamars will shut their mouth fold their arms and nods their head whatever she say or whatever she does? She had to do what to do what is necessary . She has to expect oppositions.

We can point out that when Gen Aung San did it, he did not get the backing of the British, instead British tried to break Burma (Myanmar) into two main parts if not into pieces, Burma Proper and Hilly Regions.

We all know Ma SU Kyi has the support of the British, because of her British connections. We all know what her connections are But does she not know these supports are fakes and bogus. There were many leaders all over the world

supported by the west, or the east, in the end they were hanged. U Saw, Ko Aung San were some of those. How long will Ma Su Kyi last. How long will the west support her on what conditions ?

Does she not know that? No, she does not, for she is crazy for power to take revenge on Tatmadaw for her own personnel reasons, may be.

Thunderbolts.

Dear May,

Your name sounds like a name for a female, normally, but your are not. You may be one of the transversetites. You have a right to be what you want to be. Even animals have their rights. Are you sure that photo in your washing room is U Than Shwe's. Where did you get it from an why did you put it there in your wash room in the first place? Could it be your father or your mother or could it even be your own sister?

This is a forum to talk, to speak your mind. Everyone know what possess your mind. You are different from others, that's for sure.

Are you a human being, when did you become one? Can you talk like a human being? Can you speak like a human being ? If you cannot talkl or speak human language, it is best you keep quiet and listen and learn while the elders are having a very important and good conversation. You should not disturb them.

If you want to take part in the conversation, grow up and be matured and start speaking human language. Because we don't understand your broken language well.

Did you know what I was talking about SPDC = NLD = COnstitution?

Do you know, what a Constitution is?

Have you studied the New Constitution for Myanmar?

Do you know what are there in the constitution?

Do you know why and what are they for?

What do you accept and what do you not accept and why?

You should let everyone know.

Whatever you say may be nothing but helpful to the nation and the benefits of the people.

Up to this moment I haven't heard anybody saying, what is that they are opposing ?

You should not oppose it blinding for the sake of opposition. You should not support it blinding for the sake of supporting. You must have a good reason , you must have a good ground to oppose it or support it.

Do you have anything to say? Then come on let us hear it.

This New Constitution clearly stated in chapter 12 , what you have to do when you want to amend the constitution in democratic ways.

Let us talk about the issue, let us speak about the issue.

Oh, yes, one more thing just to remind you, don't let it grow on your forehead, OK?

Regards,

Thunderbolts.

Hi Thunderbolts,

Aung San Suu Kyi did not understand many things in Myanmar history, how complicated Myanmar situation/politics and Myanmar geo-politics.

The people around her did not advice her wisely either.

Besides if we look at our history after the independence, the most important political factor is Unity with all ethnics in one nation.

As you stated several time in this forum, all Myanmar leaders had tried for stable unity in one nation, but they seemed to have little success.

Our constitution aims for it too. In our country case, human rights or real democracy values seem to be partly sacrificed for some time to come before establishing stable unity in one nation.

Aung Sun Suu kyi did not understand it and her politics has failed as a result. She seems to be too much influenced by outsiders.

Normally I don't critic anyone in regards with their personality.

However when i analyse 20 years of her politics in Myanmar I tend to think that she must be a snob, because she think too high of herself compare to Myanmar people. That's why she comitted political errors continuously and never corrected it or nerver tried to avoid the same errors next time. This is one of the several reasons why the other people said to be experienced and wise men even from her party NLD could not reach to advice her wisely. And this is a fact which many Myanmar share too. At least some people closed to opposition politics told me that.

But she is not alone to be blamed for failed policy, sure,but the whole opposition should be blamed for it.

Best regards,

May,

Or shal I call you " Wet Goung "?

Yes , run away, hit and run. That's the best you can do. run , run and run away. Though I pity your parents. I am glad that they have lost you. They have not lost a son/daughter but a dog with rabies. They rather lost a dog with rabies then having one.

DOn't worry , when I see your parents , I will tell them you are very well and still kicking.

You can not survive among human beings (Luu). Your parents must be human beings as well. The saying is " Luu Nayar Luu - Khway Nayayar Khway " You have to go back to your place in the ashes. You know your place don't you?

That's a good boy,

At least you can read, remember your promise ," this is my last reply to you, I have never read your posting and never will. You are not even a good liar.

If you come back with another name I would not mind.
I will recognised your barks and howlings anywhere at anytime.

Thunderbolts.
