
Life must goes on.

Posted by thunderbolts - 2008/05/10 05:17

Dear Patriots,

Disasters and devastations are the last things that any beings can have. No human being pray for natural disaster or for man made disasters . No even animal would do that. But we human can not get away from either disasters.

An opposition member namely from NLD in border area translated the natural disaster in Myanmar is a man made disaster, which cause the devastations. From what language to what language he was translating I am not sure.

There were Tsunami in Indonesia and Sri-lanka, Katrina in USA and famine, draught in other parts of the world , how will this NLD member interpret them how will he translate them he alone will know. That is the kind of man who belongs to that kind of party. How could this party and its members are so stupid?

I believe what happened in Vietnam, Laos , Cambodia, Korea and what is happening in Afghanistan, in Iraq, how will he translate or interpret as I could not say. Natural or man made disasters.

I can only say, that NLD member is a stupid idiot. How many of these stupid idiots are there in the NLD. Does he not know people will be laughing at him behind his back, having pity on him for being so ignorant, so stupid. At the same time people will be passing judgement on him and on NLD. Making comments and remarks.

The Myanmar saying of " Mi Aye Nha Khar Nar " (Mi Aye was hurt twice) is not for nothing.

So much of National League for Democracy . But couldn't say he was 100 percent wrong . We can also look at it from his angle. When he said this is the man made disaster, he could be right. This it will be explained later.

Opposition will say and do anything to oppose SPDC . But this time opposition should also use common sense.

All people in the world pray and pray very hard to be spared from all kind of disasters and devastations. For some their prayers were answered, but for some not. To say it in Myanmar "Dadoungzar Kwet Pyaut " some beggars lost their begging bowls.

We have seen it in the Christian Bible, we have seen it in the Buddhist scriptures. According to them these disaster and devastations may be the work of God., may be our own doing . Punishing the people for the bad deeds they have been doing. They are not behaving the way God expected them to be. They insulted God , disrespect of the God, they abuse God, they use God for their other own benefits and other causes, they use God as their stepping stones. They use the name of God to do all the mischief. So god strike them , strike them very hard. " Phaya Yite " . When Phaya Yite , it is hard, the pain is unbearable.

That is what was meant by that NLD member as man made disaster, I think When men do not behave as they should , God has to strike them. He was right in his way after all. NLD may not be the cause of disaster. But NLD is the main cause for SPDC which could not cope with the disaster. He could not blame on his own party, he could not blame on Ma Su Kyi for praying, cursing and putting the spell on SPDC, could he? So he had to say " it was man made disaster", candidly.

Having said that the life must go on. We all have to behave accordingly as God had expected us. No killings, no stealing, no telling lies, no adultery, no taken intoxication. If we understand these five precepts , observing that five precepts strictly alone will be enough for God to love us, forgive us and will look after us.

Buddhists. For Christian there are ten commandments and for others they have their own good teachings. Following the bad teachings will bring the bad results. That's for sure , You don't have to approach any seer, astrologer or Ponna Lay.

God made or man made . It doesn't matter. Those deads are gone. There are survivals. We have to help them we cannot say they are the victims of God and abandon them without help.

Politicking, politicising, pointer fingers won't help. That can come later. Helping the needy must be in order. Everything must be in order not only in Myanmar in everywhere where there are disasters and devastations of this scale.

It is also natural , people who are concern are frusted . That is why we all must try and be cooled.

“ Seit Thwar Yar Ko Ma par ”. mind travels much faster than the speed of sound, very much faster than super sonic., mind is super, super, super sonic.

That is why Buddhist taught us to control our mind., the most difficult job. We must put our mind under control.

We want to get the rescue services and aid get to the respective areas as soon as possible as quick as possible. It may be true that Myanmar has no experience in dealing in such magnitude.

This in a way is to say Myanmar's never were God forsaken people. They always been laws abiding citizens, whether these laws were laid down by God or by men. Then why is this happening now. It is up to individual interpretation , up to individual translation.

Because of lack of experience the response of the authority are so slow. There are many reasons. Political reasons, economic reason and social reasons. Apart from that everything should be in order. Nobody should let the horses out from the stable without control. Nobody should let sheep go in to the pen without control. Because if you lost control. You lost everything. It will be hard to regain that control .

Everyone and anyone who have not lost their minds knows that. Myanmar usage now a day is “ disciplined ”, or everything must be “ in order.” Compassionate or not. Some people may not like the taste of “ discipline .”

If somebody is saying SPDC does not care about the people. That somebody is a biggest liar. Every one loves their country, everyone love their people in their own way. What does and what way he cares about the people is the counter question.

Some opposition taken this as a advantage even calling and demanding arms to fight against the SPDC in the middle of this disaster. We have seen these opposition are flying the Red Flag with fighting peacock, the flag of ABSDF with their war cries. Is that what ABSDF is all about?

If this disaster is taken by some opposition as Archilees' heel by the opposition. it will be wrong very wrong again. Because opposition will be look upon as not caring for the people. Opposition has been neglecting the need of the people for all these years. The so called of the human rights of the people of Myanmar.

The lack of facilities and equipments means and ways to help the people in this disaster shows clearly what the opposition has done in the past is wrong all wrong. The leader of the opposition Ma Su Kyi may still be saying, to justify her actions and her support for economic sanctions do not effect the people.

There we are, whether it effects the people or not we are seeing very clearly again., crystal clear. God helps those who help themselves. If I can help myself . I don't need God's help. I don't need anybody's help, if I can help myself.

Some times I am made to be helpless by some wicked people. Opposition NLD is the party which tries its best to make SPDC helpless to cause man made disaster

In this disaster , people need help because they cannot help themselves. Latest news and information said the aid are getting to areas, everything is start picking up, and will get speed soon. That was according to those aid workers and Red Cross workers in the field, according to UN officials and according to Mr Gambari himself. Not by the correspondents from the so called world media who fabricated the news and twisted every thing.

The cyclone struck , border areas of Kayin State, Mon State and Irrawaddy delta the worst. where some ethnic insurgents are still surviving. Collecting information from these insurgents what can you expect. By not following five precepts or ten commandments ,. People have suffered more than enough. If there is no end to more lies, more deceits, there will be no end to the sufferings . Nobody can help them . Help will be only for the last breath before death. People must clean themselves from this ill thoughts , ill ideas.

Is the God himself cleaning the areas by Himself, taken away some people with him, making who survived to suffer more?

We can take these as warnings from God. Warning us to behave? Id we trust in God. Buddha or Mohammed.

We cannot stop anything. We must not stop doing anything. We have to carry on. We cannot rely on God alone, we cannot depend on outside help. We have to rely and depend on ourselves. We have to behave, we have to clean ourselves , our conscience . We have to regain our common sense.

If there is some thing called future, we have to prepare ourselves for the future, we have to be ready. we are what it matters, we are important.

Through this disaster, we learn more lessons. we must take these lessons and make good use.

Whatever it is, " Life must go on "as the saying goes, " the show must go on. "

Regards,

Thunderbolts.

Dear Thunderbolts,

Cyclone Nargis have passed leaving destruction and death along the way, mostly in the Irrawaddy Delta Region. The clouds above the country is gloomy and dark, it is not due to the weather, but the birds of feathers, mainly vultures hovering above the skies waiting to devour dead corpses and those who remain sick and weak.

Instead of coming together at this time of great need to help the victims, they are busy contacting other scavengers like hyenas, coyote, skunks and jackals to feast on Myanmar's unfortunate disaster.

Read - http://www.irrawaddy.org/article.php?art_id=11883

http://www.irrawaddy.org/opinion_story.php?art_id=11886

http://www.irrawaddy.org/opinion_story.php?art_id=11836

Beware! Right at this crucial moment, NLD, Ma Suu Kyi, activists in /out and Sein Win's exiles gangs are in cahoots with the West, in full throttle planning and scheming. Their propaganda machines also are in full swing too, just waiting to undermining the Government efforts in relief work.

Using the aftermath of Cyclone Nargis, they will not hesitate to foment dissatisfaction amongst the population, instigate upheaval to create more turmoil in the country.

I am Polaris

Dear Polaris,

The vultures are vultures, the hyenas, coyote, skunks and jackals they are what they are. If you and I know what they are, believe me, everyone knows what they are. Even those who are with them at the moment. How long will they be with them before the scavengers turn on each other.

You know very well that these scavengers are traitors to their own country, who do you think will trust them totally.

Remember France and British in 18 century. Myanmar did not know who to turn to. Myanmar could not make their minds up at the time. British or France never trusted the Myanmar. What Myanmar suffering is due to that mistrust. Myanmar staying none align is due to that mistrust as well.

Myanmar did it again in the 19 century the Japanese and British do not trust some Myanmar's double standard, the knife with double edges.

Do you think Sein Win and all can fool them? They can fool some people at some times. But they can not fool all the people at all time.

No matter how inefficient SPDC may be under circumstances, the world does not want to see Myanmar to become another Iraq. That's is for sure.

The show must go on.

Regards,

Thunderbolts.

Life goes on but the fools dig in and idiots keeps doing the same stupid things that they usually do. There is no cure or medicine for stupidity nor for idiotic behavior or for fools. In the mist of catastrophe some idiots still talking about referemdum. Intelligent brains can see the scope of these moronic maniacs' behavior/action and writing. I sincerely believe these idiots are brain damaged/washed and deceived and needs some psychiatric check ups.

Hi Mr. Thunderbolt (aka Moegyothwar),

Good to hear from you. But please, stick to the cyclone.

We all need positive discussions.

No need to bring up old wounds.

Regards,

Km
